A look inside

Administrators weigh road patrol appeal

People helping other people — that's what makes the world go around.

THE YOUNGSTERS at Mt. Pleasant Elementary School in Romulus organized a paper drive to raise money to defray the costs of being hospitalized for a man they never had met — Page A-4.

FUNDS ARE being collected in the Belleville and Romulus areas Friday through Sunday for the mentally retarded. The Knights of Columbus council is conducting the drive — Page A-3.

CERTAIN lower-income workers may be eligible to receive a special payment of up to \$400 from the federal government, but they have to file a 1975 income tax return to receive it — Page A-15.

"REENACT the bill without any changes was the message left in Washington." Those are the words of Mayor James Stewart who petitioned President Ford recently to continue federal revenue sharing — Page A-3.

ROMULUS mayor believes the city will reap a \$100,000 yearly harvest — in taxes, that is — Page A-3.

THE ROMULUS Recreation Department has implemented a variety of programs for the community's senior citizens — Page A-3.

All-Area basketball

Big, tough, small, lightning fast, quick. These and other adjectives describe The Associated Newspapers' 1976 ALL-AREA basketball squad. Members of the first and second teams and those selected for honorable mention can be found in the sports section of today's Roman beginning on Page B-1.

Tootsie Roll caper

Local officials from throughout the area gathered recently to endorse the Knights of Columbus First Annual Tootsie Roll Campaign for the Mentally Retarded. Pictured are (from left) William Daniels, of Inkster, Mayor Paul Lada, of Wayne, Mayor Samuel

Pappas, of Garden City, Westland Mayor Tom F. Taylor and Romulus City Clerk Leonard Folmar. Funds raised during the April 9-11 project will go to the local agencies for the mentally handicapped.

K of C is sponsor

Candy drive to aid retarded

Public officials from throughout the Western Wayne County area have endorsed a special Knights of Columbus (K of C) candy sale campaign designed to benefit the mentally handicapped.

The K of C is sponsoring its first annual Tootsie Roll Campaign throughout the Westland, Wayne, Garden City, Romulus and Inkster areas to raise funds for

local programs for the mentally handicapped.

This year's local campaign funds — more than 70 percent of the proceeds from the Tootsie Roll sales — will go to the Western Wayne Association for Retarded Children in Inkster.

According to a spokesman for the K of C, the Western Wayne Association was chosen because it is "in dire need of funding to carry out its programs and ob-

jectives area-wide."

Volunteer candy salesmen will be circulating throughout the area, and will be stationed on street corners and shopping areas to solicit charitable donations in exchange for large Tootsie Roll containers.

Michigan Gov. William G. Milliken has given the April 9-11 campaign official endorsement with an executive declaration issued in Lansing.

patrol, commented on the appellate court's decision:

"My unqualified recommendation would be to appeal this decision to the Supreme Court. The 200,000 people who live in this area have an absolute right to full trial on the merits of the case."

"The courts have never allowed us to bring into court the evidence we have gathered. They give every murderer and rapist 15 chances to be heard and we haven't been heard once."

Greenstein was referring to Judge Foley's summary dismissal of the lawsuit in Wayne County Circuit Court.

Foley agreed with attorneys for the county that Sheriff William Lucas is not obliged by law to patrol county roads, and the county has no obligation to provide special police services to unincorporated areas.

Van Buren Supervisor G. Elton Gollwitzer said, "I think this is worth taking to the Supreme Court, not only for us but for the rest of the state."

Brownstown Supervisor W. Curt Boller said the township will take its case to the Supreme Court to keep the sheriff road patrol operating in Brownstown Township and six other unincorporated townships.

"They (Court of Appeals) decided in a summary judgment last week that the county is required to provide law enforcement protection, but not necessarily with a road patrol," Boller said. "Without the road patrol the townships will have no protection other than from the State Police."

Commissioner John Barr, newly elected chairman of the County Board of Commissioners, said he didn't expect any immediate reaction on his budget for the next fiscal year. He added that the road patrol will continue functioning at its present level through November, which brings an end to the county's fiscal year.

He suggests it not be paid

\$27,400 legal fee riles mayor

The attorney representing Romulus residents in their quest to end expansion of Detroit's Metropolitan

Airport in the community may have some difficulty getting paid for his efforts.

Mayor James C. Stewart said he will not recommend that the city pay Jerrold Fadem, a California-based attorney, for work he billed the city and school district for on the U.S. District Court suit against the Wayne County Road Commission to stop expansion of an airport runway.

"The city authorized paying only \$7,500 of a \$15,000 retainer fee for Fadem to process the suit," Stewart said. "Now we receive a bill stating we owe \$27,400 beyond that."

"I wish I were an attorney who could not pay on bills like that."

"He keeps adding to the costs, and I don't think that's part of the agreement," Stewart said.

Fadem's bill is for case costs and professional services from 1973 to 1975 involving court suits and a trial over construction of a \$33 million runway.

Though work on the runway was stalled, following a lengthy trial before U.S. District Judge Cornelia J. Kennedy, the judge later ruled that the road commission and the Federal Aviation Administration (FAA) could continue work after complying with federal environmental impact laws regarding the work.

The Romulus City Council and the Romulus Board of Education have appealed the ruling to the Sixth Circuit Court of Appeals in Cincinnati.

"I don't understand the bill, particularly the part about the appeals because the city attorney has done most of the work," Stewart said. "I think it's a big waste of the taxpayers' money to pursue this thing, and I don't intend to throw money away like this attorney would like."

Stewart opposed the appeal of the runway ruling in late December when Fadem, at the request of the council and residents, came to Romulus to detail the chances of overturning the original ruling at the appellate court level.

"The California attorney billed the city and school district \$125 apiece for the costs of his trip."

"I'm against the appeal, particularly at these costs because the runway will be built," Stewart said. "If a further court case had a chance of winning damages for citizens, I'd back it."

Although Stewart can recommend payment of bills, only the city council is vested with the authority to make payments, according to the Romulus City Charter.

'Jelly' to aid handicapped

Romulus Mayor James C. Stewart (left) purchases the first jar of Jaycee Jelly as part of the Romulus Jaycees-sponsored "Jelly Week" which will run until April 17 in the community. With Stewart are Tom Von Glahn (center), of the Romulus Jaycees and Andrew Miller, chairman of the event. Von Glahn's daughter, Lorraine, a

member of the Romulus Eager Beavers, is one of the children who will benefit from the proceeds of Jelly Week sale. Between 60- and 70-percent of the proceeds from the \$1-per-jar sales will go to the Eager Beavers' summer camp for handicapped children. See story on Page A-14 — Romulus Roman photo.

Suspect held in murder-robbery

Officers of the Wayne County Sheriff's road patrol are holding a 25-year-old Romulus man in the bludgeoning slaying of a 23-year-old Wayne gasoline station attendant Monday.

The suspect's name has not been released in the robbery-murder of Clarence Ralph St. Charles.

The body of St. Charles was found at 11:45 a.m. Monday locked inside the Speedway service station at the corner of Van Born and Wayne roads, in Romulus.

According to a department spokesman, another employee has been arrested and accused of beating the Wayne man to death with a heavy wrench before taking some \$2,000 in receipts from the station between 9 and 10 a.m. Monday.

The spokesman said St. Charles had been employed at the station for only a week before the slaying.

Police would not release the name of the suspect, who was to have been arraigned after press deadline.

He was being held at the sheriff's road patrol headquarters in Westland

pending formal filing of charges.

A sheriff's detective said the suspect was an employee at the station, having worked for three years for the firm that owned it, though not always at the Romulus location.

The body of St. Charles was found late Monday morning by a customer, who pulled in for gasoline and found the station locked, the detective said. Police experienced some difficulty

in investigating the case at first because the station owner was on a trip.

The detective said the money that was taken consisted of weekend receipts.

He said patrons described St. Charles as "friendly and outgoing." He was married and his wife was expecting the couple's first child at any time.

Wallace to be in Romulus

Alabama Gov. George Wallace, Democratic candidate for President, will be in the area Saturday.

Wallace, crippled by an assassin's bullet during the 1972 presidential campaign, will be making an appearance at Romulus' Ramada Inn starting at 11:30 a.m. Saturday.

The governor will arrive at Metropolitan Airport in Romulus at 11 a.m. and will hold a press conference at 11:30 a.m.

He then will meet with elected officials from area communities from 1 to 3 p.m. and will hold an open house to meet the public starting at 3 p.m.

The governor is then scheduled to speak at the annual Jefferson-Jackson Dinner in Detroit at 7:30 p.m. that same day.

Workers at Wallace's campaign headquarters in Lincoln Park said the governor's visit will be the first in the state since he announced his intention to seek the 1976 Democratic Party nod.

Wallace's appearance will officially kick off his campaign in Michigan, which he hopes will lead to a victory in the state's May 18 presidential primary with an effort that duplicates his fine showing here four years ago.

In addition to shaking hands with his admirers, Wallace will be seeking volunteers to work on his campaign.

Persons interested in volunteering can do so by calling Wallace headquarters in Lincoln Park at 381-3003.

Mrs. Tigner honored for community work

The Romulus branch of Communities United For Action (CUFA) has honored a long-time volunteer of the organization.

Wilberta Tigner, who has served as a volunteer with the community aid agency during the four years it was operating in the community, was honored at a surprise dinner April 1 at the CUFA offices in the community.

Donald Wrench, executive director of the CUFA agencies in Wayne

County, presented Mrs. Tigner with a plaque stating: "I have heard it said that whenever anything is happening in the community, you are actively involved."

Mrs. Tigner is presently serving as president of the CUFA food co-operative and is co-chairman of the CUFA advisory council, which makes recommendations on courses of action for the agency.

Mrs. Tigner lives with her family at 35451 Beverly Rd.

Dedicated volunteer

Wilberta Tigner (right) a long-time volunteer with the Communities United For Action (CUFA) in Romulus, is given a plaque in recognition of her dedicated service by Helen Avery, a CUFA staff

member. Mrs. Tigner, who lives in Romulus, has been available to handle virtually any job sponsored by CUFA since the agency first moved to the community in 1972. — Romulus Roman photo.

Krzesinski to serve a congressional page

A Belleville High School junior will have a year to remember, after beginning work last Thursday for the nation's highest governmental body. Randy Krzesinski of 49904 W. Huron River Drive, Van Buren Township has begun his training as a congressional page after receiving an appointment from Congressman William D. Ford (D-15th District).

Congressman Ford represents the

Belleville-Van Buren area in the House of Representatives.

Krzesinski, who will study and work at the same time in Washington, D.C. has begun training as a page, and will receive his senior year of education at the Page School in the Library of Congress.

Students, appointed pages in Congress, not only receive a year's education in Washington, but become

acquainted on a first-hand basis with the operations of the nation's government.

Pages serve as assistants to legislators, handling such duties as deliveries and special projects upon request.

The son of Mr. and Mrs. George Krzesinski, he is only the second Belleville High School student to receive such an appointment from the congressman.

RANDY KRZESINSKI

Buying a horse: Serious obligation

Buying a horse should be a serious family obligation, not treated as though a snowmobile or motorcycle were being purchased.

"A horse needs daily care, regular exercise and good housing facilities. It cannot receive intermittent

attention and remain healthy," said Dr. Richard J. Dunn, Michigan State University Extension horse specialist.

Prospective buyers should be aware that feed, tack and medications cost around \$800 annually. That does

not include an adequate exercise area, fencing and proper housing.

Consideration should be given to local zoning restrictions, possible pollution problems, new tax developments and potential liabilities keeping a horse might incur.

"We are not trying to discourage people from buying horses, but to make them more aware of the responsibilities that go with keeping one," Dunn said. "It is far better for prospective buyers to weigh potential inability to adequately keep a horse."

CITY OF ROMULUS NOTICE OF LETTING

Sealed proposals will be received in the Office of the City Clerk, 11111 Wayne Road, Romulus, Michigan, until 2:00 p.m., Tuesday April 19, 1976. Bid proposals will be publicly opened and read at that time on the following:

76-13

Fifty (50) Two-piece cover Map Binders
1) Proposals shall be submitted on forms furnished by the City, which may be obtained from the Office of the Clerk, 11111 Wayne Road, Romulus, Michigan, and shall be enclosed in sealed envelope endorsed: "BINDERS".

2) The right is reserved to reject any and all proposals and to waive technicalities. Proposal guarantee in the amount of five (5 percent) percent of the bid will be required.

City benefits from factory and tax break

Romulus Mayor James C. Stewart believes Romulus will reap a \$100,000 yearly harvest, when the first phase of the General Motors Corp. Detroit Diesel Allison Division manufacturing plant is completed.

Stewart said the nearly 500,000 manufacturing area will bring in nearly \$42,500 in taxes on the city's 5-mill levy this year, and predicted the "take" would be doubled when the initial phase is completed.

"This is just the beginning for Romulus," said Stewart on the eve of the operation's start-up. "I see a time when the city government will not have to worry about how the money is spent, and when the school district will not need state aid because of the increased state equalized value of property behind each child in the district."

The initial phase of the manufacturing plant includes the 500,000 square-foot manufacturing area and nearly 180,000 square feet of area for storage.

The entire building will cover 15.6 acres and will require nearly \$3.5 million in equipment purchases to combat air pollution.

"The equipment being put in by the General Motors Corp. far exceeds anything required by the state," Stewart added.

He said the GM development was a tribute to the new Michigan state law which allows communities to give a tax break to firms desiring to locate in those communities for up to 10 years.

The GM development was absolved from paying half the taxes on new buildings and manufacturing equipment utilized as part of the new complex.

In time, according to the mayor, the GM complex will employ 1,300 people and will nearly double the community's total value.

The Romulus City Council adopted a resolution in 1974 to grant the giant manufacturing firm a break, if it located in Romulus.

"It proves that by giving a tax break over a specified period of time, we'll be getting more money into this community in form of taxes than if the complex hadn't been built," Stewart said.

With the new construction, Stewart sees good things on the horizon for Romulus.

"We'll be a community which will be in a position to have anything we want," the mayor added.

For retarded K of C open drive

Belleville Mayor Justin Emerson has joined with local officials from throughout the state in declaring Friday through Sunday as the Knights of Columbus of Belleville Mentally Retarded Children and Adults Day in the community.

Members of Fr. Maximilian Kolbe Council of the Catholic fraternal organization will be conducting a drive to collect funds for the mentally retarded.

The council is joining in with others from throughout the state in selling Tootsie Rolls to

benefit centers for the retarded. Under the program, 70 percent of the funds collected by the local councils will be available for disbursement to local projects for such handicapped youngsters and adults.

In the three Catholic dioceses that make up the state, all of the Knights of Columbus Councils have signed up to participate in the first annual program.

The Belleville solicitation is under the co-chairmanship of Harold J. Higgins and Edward J. Wolanin. Council members will be on the streets of

Belleville and at the Chatham Supermarket in the Rawsonville Shopping Center with Tootsie Roll cannisters this weekend to collect donations.

According to Emerson: "Mental retardation disables 10 times as many children and adults as polio did before research provided the Salk vaccine."

"I urge all citizens to support continued treatment of the mentally retarded through gifts and donations to the Belleville Council of the Knights of Columbus and to the other councils of the State of Michigan."

Stewart asks Ford to continue funds

Romulus Mayor James C. Stewart was among the 300 top administrative elected officials from the cities of the nation who petitioned President Gerald R. Ford for continuation of the federal revenue sharing concept.

Stewart carried the message along with his peers at the annual National League of Cities U.S. Conference for Mayors and City Managers in Washington, D.C.

Stewart indicated he favored adoption of a \$39.95 billion revenue sharing package proposed by President Ford to run until 1982.

"Re-enact the bill without any changes was the message left in Washington," said Stewart upon his return. "With 2,500 city officials in Washington from every region in the country, I believe we influenced Congress to move forward on this measure."

Stewart feared that Mr. Ford's message during a keynote address March 14 was true. The President had said Congress "fails to understand the importance of this program to the people of the cities, counties and states of our nation."

Revenue sharing, a unique concept adopted during the second term of Richard M. Nixon, gives communities federal money to spend as they see fit without any federal requirements.

Since its inception, revenue sharing has provided some \$1.2 million in funds for Romulus and has provided \$30.2 billion nationwide for local and state governments.

Romulus' present concern with the revenue sharing concept being promoted in Congress is a suspected move to take money from govern-

mental units which have spent their funds wisely while returning it to units which squandered tax funds.

Romulus is in a situation where revenue sharing becomes an improvement for the city's tax revenues

instead of a fund needed to keep the city solvent.

Congressman William D. Ford (D-15th District) has been lobbying in Congress for the past several years for a revenue sharing formula which considers "total tax effort" in a community when computing returns instead of the present formula which considers only partial tax levies.

The revenue sharing funds are distributed on a 2-part formula which considers a community's tax effort and then translates that effort into a set amount per person in the community for return to the community.

Communities which were incorporated with low tax ceilings, and which have to levy several different special assessments to pay for improvements are penalized under the formula because special levies which are not part of the general fund operating taxes are not computed in the "tax effort" formula used to determine the amount per capita a community receives.

Romulus' most recent return from the federal government added up to \$18 per capita — or approximately \$430,000 last year.

No funds have been sent to the city for the 1976 fiscal year.

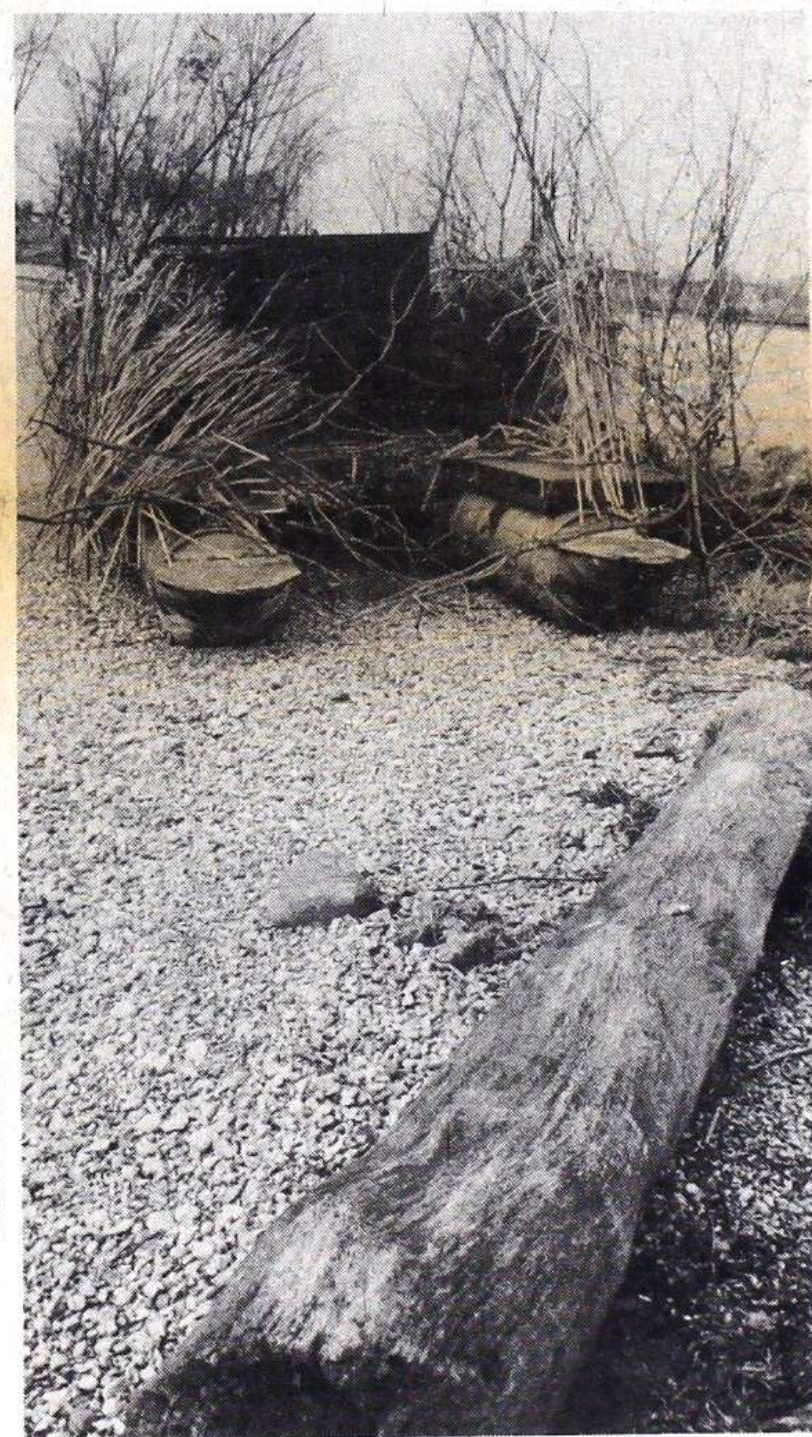

Rec dept. expands program

The Romulus Recreation Department has implemented a variety of programs for the community's senior citizens.

The program for Monday includes bowling, from 9:30 to 12 noon; ceramics, from 1 to 3:30 p.m., and square dancing, first and third Mondays of the month from 3:30 to 5 p.m.

On the first and third Wednesdays of the month, crafts workshops and demonstrations are held from 1 to 3:30 p.m., and shop and show classes are conducted on the second and fourth Wednesdays of the month from 9:30 a.m. to 4 p.m.

The Pinochle Club meets on Thursdays from 1 to 3 p.m. and a sewing class is held on Fridays from 1 to 3:30 p.m. Additional information on the programs, which already have started, can be obtained by calling the Recreation Department at 944-0666, ext. 67.

Unwanted

An unwanted duck blind is among the items ANP Chief Photographer Lothar E. Konietzko found along the shores of Belleville Lake recently. The blind, as were others, was at the center of a controversy last fall that pitted duck hunters against the Van

Buren Township government in a dispute over a ban on duck hunting on the lake, the largest in Wayne County. The furor over the ban has died down, as has the use for the now dry-docked blind.

Lake drops

The operators of the Belleville Lake Dam will be raising the level of the lake by five feet starting April 19.

Each winter, the lake is lowered by approximately five feet to compensate for possible heavy storm drainage flow into the reservoir during the spring thaw.

The lake then is raised during the summer when the danger of heavy storm flow is past for summer recreation on the lake.

Residents abutting the lake are urged to make arrangements to compensate for the increased lake level now.

'Look, Mom, no flyer'

Airplanes to do death-defying feats

Pilots in Van Buren Township will be doing death-defying stunts with their aircraft starting at 1 p.m. Saturday, weather permitting.

However, although the stunts the pilots plan to perform will take their aircraft within inches of the ground, and twist the planes at angles which would cause even the best of pilots to black out, no one will be hurt, because the craft used for the flights are all unmanned.

The Michigan Radio Control Association will be holding a type of "coming out" party at the Van Buren Township Hall to demonstrate one of the oldest

forms of model airplane flying which is experiencing a resurgence.

According to William Haley, president of the association, the group intends to provide both ground and air displays of between 50 and 100 aircraft built by the association's 40 members. The display of aircraft is

scheduled to open at noon Saturday.

The airplane buff said crafts on display will range in cost from less than \$50 to as much as \$250 for a well-finished model.

However, according to Haley, it isn't the aircraft, but the two-to-five channel radio controls which are the key to model flight. "A five-channel transmitter for

an aircraft could cost as much as \$300," Haley said. "Depending on the type of craft, and its sophistication in flight, more channels are necessary to control it."

Haley said the most basic aircraft use only two flight controls, rudder and speed, to maneuver, while the most sophisticated aircraft use not

only speed, but climbing and banking controls to simulate flight.

"The advantage of radio control is that the maneuvers performed by the aircraft are more exciting than manned craft," Haley said. They are not hindered by a pilot's physical capacity to bear the stress of flight. You'll find craft which can

perform the most dangerous spirals and dive within inches of the ground without any difficulty. "Normal aircraft would be able to perform the same maneuvers, but the pilots of those craft would pass out from the stress."

The oldest pilot in terms of flying is the club vice-president, Bob McGlochin, of Van Buren, who has been flying the radio controlled craft since the 1930s.

Residents are invited to attend the free display. The model flyers will be available to explain their craft and urge residents to become involved in what they believe is the most exciting hobby in the nation.

...the stunts the pilots plan to perform will take their aircraft within inches of the ground...

Helping others

The youngsters of Mt. Pleasant Elementary School in Romulus found out what it meant to help others, when they raised money for double amputee Richard Boniecke. In return for their acts of kindness, Boniecke (center), a volunteer police officer who lost his legs as a result of an automobile accident, visited the school to offer his thanks personally and to discuss police work with the children.

Students come to aid of amputee unknown

A paper drive to help raise money to defray the costs of being hospitalized may not seem the sensible way to pay bills, but for students at Mt. Pleasant Elementary School in Romulus, it was a way of helping a man they never had met.

The youngsters, through Pearl Hamlet, in January learned of a volunteer police officer who had lost both of his legs as the result of an automobile accident.

Wanting to help the double amputee, John Boniecke, the students organized the paper drive to help him meet the hospital expenses and the cost of artificial limbs.

In addition to the paper drive, to which some of the students contributed, some of the classes at the school wrote letters to Boniecke,

expressing their concern and sympathy a school spokesman said. Also to help brighten his life, the

Parking changed

The Belleville City Council has taken action to free up the city's streets for street sweeping this year.

The council has endorsed a "no parking" ban on city streets between the hours of 2 and 6 a.m. Tuesdays.

The move is to avoid a problem which occurred during last year's sweeping efforts when traffic left in the roads kept the city's lone cleaning vehicle from scouring the curbs.

students of Mary Peterson baked a Valentine's Day cake and took it to him while he was in the hospital.

To help expand the kitty set up for Boniecke, Miss Peterson's students, along with those in Cheryl Keidel's class, also held a benefit bake sale.

In an effort to express his thanks for what the children had done, Boniecke paid a visit to the school on March 23, meeting with the students in Jessie Simmons, Miss Keidel and Miss Peterson's classes.

In speaking with the youngsters, he said: "Only in America could we do this. You children ought to be glad that you live in a free country." He also thanked the children for their acts of kindness and spent much of his visit discussing police work with them.

To open at mid-month

Van Buren prepares for rec programs

The Van Buren Township recreation department is planning on opening its spring schedule in mid-April.

Offered through the department this year will be regular recreational activities, community service instructional activities and special events.

Open swimming will be available on Mondays and Wednesdays at the Belleville High School pool, along with swimming instruction, which will run from April 17 through June 5.

A special Wednesday evening "Swim and Stay Fit" program is being promoted for adults at a cost of \$8 for the 10-week session which includes instruction and recreation.

Elementary students will be offered a gymnastics course starting April 26 and running to June 7 at North Junior High School. The program is designed to teach elementary students the basics of tumbling and gymnastics.

Adult physical fitness training will be offered Mondays, Wednesdays and Thursdays at the high school until June 17.

Starting April 12, and running until May 24, the department is sponsoring a beginning tennis class for residents at the South Junior High School gymnasium.

Basic tennis grips, motions, the basics of scoring and the mechanics of the game will be taught.

Those interested in continuing fitness while learning a philosophy of self-confidence can do so by participating in the on-going karate demonstrations scheduled for Tuesday and Thursday evenings.

Detailed information on the recreation activities and the fee schedule can be obtained by calling the Recreation Department at 699-2001 or by stopping by the Van Buren Township Hall to pick up a free brochure.

New to the program this year are community service instructions, including classes for 10 or more students in the CPR technique, which can be used in cases of cardiac or respiratory failure.

Teachers in the district also can invite speakers to put together "mini-ecology" demonstrations for their classrooms during regular class hours.

Arrangements for both activities can be handled by calling the recreation department.

Special events offered by the

township include an air show by the Michigan Radio Control Association scheduled for 1 p.m. April 10 at the Van Buren Township Hall. Admission is free to the radio controlled model airplane demonstration.

A model car contest will be held

April 21 for youngsters aged 8-17. Entries will be accepted between 1 to 7 p.m. for a 50-cent fee and judging will be held at 8 p.m. that night.

Youngsters who have constructed model cars will be judged on their expertise in assembling their models

based on both age and category.

Youngsters in the township also are being urged to begin planning for the annual kite flying construction contest scheduled for May 8 at 10 a.m. at the Van Buren Township Hall.

Kites entered for a 25-cent fee will

be judged on both design and flight, and youngsters who opt to purchase kites will be judged on their ability to fly a kite during the competition.

Scheduled for May 7 from 6 to 9 p.m. is a Mother and Daughter Soup 'n' Sandwich Buffet at the Van Buren Township hall. A surprise movie will be screened following the buffet.

Admission is \$2 for a mother and the first daughter and 50 cents for each additional daughter.

Parents are urged to register early for the event by calling the recreation department.

Arrangements for the activities can be handled by calling the recreation department.

VA death benefits available for vets

Death never is a pleasant subject, but former servicemen and veterans should keep in mind several death benefits available through the Veterans Administration (VA).

VA currently will pay up to \$250 toward the burial expense of an eligible veteran, with an additional \$150 available as a plot or interment allowance, when burial is not in a national cemetery or other facility under federal government jurisdiction.

According to VA spokesmen, the allowances are paid to funeral directors and cemetery owners, if burial costs are unpaid. However, if the bills have been paid, the proper claimant is the person who bore the expense of the funeral and burial.

In service-connected deaths, payment not to exceed \$800 will be made in lieu of the usual burial and interment allowances.

All eligible veterans can be buried at any one of the national cemeteries, with the exception of Arlington. The veteran's spouse, minor children and, under certain conditions, unmarried adult children, also are eligible for burial in those facilities.

Since 1967, burial at Arlington National Cemetery has been limited to persons dying while on active duty, Medal of Honor winners, former service personnel on official service retirement lists, certain high government officials and certain members of the immediate families of those listed or already buried there.

The VA also will provide, upon request, an American flag to drape the casket of the veteran, as well as headstones, or grave markers, for eligible veterans and memorial markers for certain members of the armed forces who die on active duty and whose remains are not recovered.

Eligible veterans, according to VA spokesmen, are those discharged under conditions other than dishonorable and who served in the Spanish-American War, Mexican Border Period, World War I, World War II, the Korean Conflict, the Vietnam Era, or who are peacetime veterans entitled to service-connected compensation at the time of death or discharge, or who are retired for disability incurred in the line of duty.

Veterans needing more information on the allowances, should contact the local VA office.

As Panax sees it Let's stop stealing from our children

How much longer can we keep on stealing from our children?

How much longer are we going to let the politicians and the bureaucrats delude us for their own personal gain and ego gratification at the expense of our children—the taxpayers of 1990 and thereafter?

Think about what's happening. A majority of our peerless political leaders—be they local, state or national—cry for more and more public spending. It may be for schools, mass transit, mental health, law enforcement or revenue sharing (to ease the local tax collector's pain). Whatever, it is the same people who put up the money.

The taxpayer. And he's the same guy whether it is local, state or national taxes.

A couple of generations ago the politicians and bureaucrats came up with a gimmick. Instead of taxing to get the money to spend, they figured, borrow it.

Borrow they did—to the point where the national debt now stands at more than a half trillion dollars.

"Don't worry, the politicians and economists said. 'We owe it to ourselves so we don't really have to pay it back. It won't cost us anything.'"

That was 40 years ago, almost three generations. We've heard it frequently ever since. Our fathers and mothers and business predecessors didn't have to pay it back.

But look what's happened. On June 30, 1936—when Franklin D. Roosevelt was running for a second term—the national debt stood at \$33.8 billion. Money they wouldn't have to pay back because they owed it to themselves.

On June 30, 1976—this coming June and in the middle of another presidential campaign—we taxpayers will have paid \$34.2 billion in interest alone on the national debt.

Our parents didn't have to pay it back. Neither do we. But we are paying right now \$400 million a year more in interest alone than the total debt they had run up through 1936. And we're not paying back a cent on the principal, either. That's just the interest.

What's it going to be by 2016? Will our children and their children be paying a half trillion dollars a year just in interest on the money we borrowed to slake our desires, to meet the promises our politicians are holding out to us to keep themselves in office?

Could be. This "let tomorrow take care of itself" attitude is becoming more rampant among our bureaucracy.

Michigan's Public Service Commission (PSC), provides the most recent glaring example.

In February the PSC denied Consumers Power Co. a requested gas rate increase.

Last week they cut by two thirds a Detroit Edison rate increase request.

In both instances the PSC virtually ignored the utilities' warnings that they had to have more money now to start work on or complete the facilities we and our children will need in 1980, 1985 and 1990 to meet the power demands of that era.

With a growing population Michigan is going to need more jobs. To get more jobs it needs more industry. More industry requires more power. If the power isn't there industry will go where it is. It's as simple as that.

No company or government can spend all of its income on expansion, new facilities, automation. Utilities are no different.

In 1975, for instance, 40 cents out of every dollar Detroit Edison took in was spent on fuel to run its generators. Local, state and federal taxes, wages and salaries, cable, poles, insurance, trucks and, yes, profits have had to come out of the remaining 60 cents. Consumers Power has the same problem.

There isn't enough left in the profit kitty to finance, even through borrowing, the new generating plants our children are going to need for all of their heat and light and to run the factories in which they hopefully will have a job.

Michigan's Public Service Commission is mired in the future-be-damned attitude of our fathers. By its actions—not its words—the three-man panel sees only the effect on today's customers, totally ignoring the fact that if today's customers pay only a little more their children will have to pay a lot less.

But then, today's voluble professional consumer advocates are here and now and the PSC can't stand their criticism. Today's children and their children, who will pay an even heavier tab—unless the PSC completely takes over the utilities by then—don't make any noise about the shortsightedness and the injustice.

Come to think of it it might be poetic justice—not a good idea but poetic justice—to make the PSC take over the utilities and see what kind of a job it would do.

Until then we'd still like to hear an answer to our question:

When do we stop stealing from our children for our own personal gain and ego gratification?

PANAX EDITORIAL

'Utmost strategic importance'

S. Africa must be accepted

To the editor: For many years the United States has had no constructive policy in Southern Africa. Our leaders have ignored it and even castigated certain countries because their racial policies differ from our own. And yet Southern Africa is one of the most strategic areas for the West in the entire world.

Some of the free world's most valuable natural resources come from Angola, Zambia, South Africa, Rhodesia, and Mozambique. South Africa possesses 85 percent of the free world's uranium reserves, 75 percent of the entire world's gold reserves, 85 percent of the free world's diamonds, and will soon be one of the largest exporters of coal. Zambia is one of the world's largest copper producers and Rhodesia is the free world's largest producer of chromium—a very strategic metal. (Russia is the only other large producer.)

Because of the sea lanes around the Cape, Southern Africa is of the utmost strategic importance to the United States and Western Europe in both times of peaceful world trade or in times of war. Most of Western Europe's and the United States' imported oil comes around the Cape in supertankers. If our leaders do not understand the strategic importance of Southern Africa, the Soviet Union does.

In a total mockery of detente, the Soviets are currently attempting to colonize Southern Africa and spread wars of Marxist "liberation" (revolution). They have been very open in their intentions and successful in their ventures, (i.e. Angola).

They currently believe our leadership is very weak and that in the post-Vietnam era and in an election year, that our leadership on Capitol Hill and in the White House will not resist their advances. So far they have been proven absolutely correct, so they continue to advance. The United States is currently relinquishing our world leadership in foreign policy and giving the Russians carte blanche for expansion. This must stop now!

For years South Africa has extended their hand of friendship to us and we have rejected it because their racial policies differ from our own. And yet the following facts are ignored:

- Blacks in South Africa enjoy more freedom than in any other African nation.
- More blacks own automobiles in South Africa than in the rest of the continent combined.
- More blacks own property in

Residents enjoy cake

To the Editor:

There are no words to describe the joy that we, the residents of the Wayne Convalescent Center, felt when we looked upon the beautiful cake that Ray Dau, owner of Belleville Home Bakery, donated for our monthly birthday party.

The cake was decorated with many roses, trimmed in green and said "Happy Birthday."

When we were told by Mr. Dau that he would be glad to donate and decorate a cake for us, we never expected anything quite so grand. What a fantastic surprise!

Thank you Mr. Dau for making our monthly birthday party so great. Linda Vineyard, Activity Director, Wayne Convalescent Center

School program pleases woman

To the Editor:

The past week I took advantage of the services offered by the Romulus Senior High School Department of Cosmetology and I must say I was very pleased.

The atmosphere was relaxed. The student operators were confident and efficient under the supervision of Mrs. Eddleman.

I would recommend taking advantage of these services. Mary Dahlstrom, Romulus

By BOB BERG
Panax Lansing Bureau Chief

LANSING — Perhaps the most ironic part about the demise of the political reform bill is that in the end it was the bill's most fervent backers who brought it down.

It was Common Cause, the self-styled citizens' lobby group which was instrumental in passage of the mammoth bill, which insisted that all of its provisions be put in one vehicle. Some staffers from the governor's office and some Republican lawmakers had suggested that might be unconstitutional, but Common Cause and the Democratic lawmakers said it would be okay.

Thus, over a year ago, was the groundwork laid for the Supreme Court ruling that the bill violated the constitutional mandate that "no law

'Blacks in South Africa enjoy more freedom than in any other African nation.'

South Africa than in any other nation on the continent.

• Blacks living in many rural areas of South Africa (called homelands) are being encouraged to seek independence and aided in this endeavor by the government.

• Over 400,000 blacks a year try to get into South Africa from other countries to live because the stan-

dard of living and freedom are so much higher for blacks. (Is this true of immigration into Iron Curtain countries?)

• South Africa has a free enterprise economic system more closely patterned after that of the U.S. than any nation in the world.

• South Africa is the financial and industrial giant of Africa and is the

This story has happy ending

To the editor:

Most of us may remember that George Washington's birthday was celebrated on Monday, February 16, to give federal, state and county-city employees a long week-end and that it rained all day. We in Belleville were having our early spring thaw.

We may also remember that a couple of months ago a contractor disrupted traffic on West Huron River Drive, Van Buren Township as his crew dug through the frozen earth installing new sewer line taps. Filling up the holes with the frozen chunks of earth resulted in some voids, and in my case, a marginal job of tamping down the edge of the road and part of my driveway.

I first noticed the effects of the spring thaw at about 4 p.m. on Washington's Birthday. A hole some two by four feet by three feet deep had "washed out" into which the run-off water was disappearing. I got out my wheel-barrow and "barrowed" two loads into the hole with little effect. I then remembered that the contractor's crew had broken the water main and I wondered if their patch was leaking. It appeared to me that some professional advice might be appropriate, especially since the gas main and the gas line to the house were visible at one end of the hole.

Telephone calls were made to Van Buren Township and the Wayne County Sheriff's Department and both suggested the Wayne County Road Commission. The person on the other end of the telephone at the

road commission agreed that the exposed gas line was a hazard and that somebody would come out to look at it. During the rest of the afternoon and evening, repeated assurances were given that somebody would be out. I put a piece of two-by-four in the hole to discourage anybody from driving into the hole and slept poorly and uneasily that night as nobody came out.

It stopped raining in the morning and after some more phone calls somebody at either the Road Commission or the township office suggested it was the contractor's responsibility. When notified, his representative came out; it was decided that the water main was not leaking and the hole was filled. He acted appropriately.

Road solution criticized

To the editor: I must disagree with the support State Rep. Gary Owen (D-22nd District) is giving to legislation which will increase the share of gas and weight taxes going to county road commissions.

I know these commissions need more revenue, but the solution advocated by Mr. Owen will take money away from the maintenance and repair of our state highways at the very time we need more money for them. While we have many frustrations over the condition of county roads, there are many more

stable anchor of Southern Africa.

• South Africa would cooperate with the U.S. in defense efforts for Southern Africa, including the use of their naval installation in Simonstown.

The U.S. cannot continue to ignore this strategically located, potential ally simply because all of their internal policies do not conform to our own. After all, we sold wheat to the Russians while they were arming the North Vietnamese and we will sell more wheat to them while they persecute Russian Jews, maintain Siberian labor camps, and colonize small African nations. If detente with our enemies, why not with our friends!

The U.S. must change its attitude toward South Africa on matters such as trade restrictions, lending restrictions, and defense cooperation. The Russians control the Indian Ocean, have quasi-control over the Mediterranean and may now have the potential to establish an Atlantic naval base in Angola. The U.S. must act immediately to neutralize these Soviet advances in Southern Africa and utilize our potential allies or essential shipping lanes and a very strategic part of the world may soon be irretrievably lost.

I believe it is imperative that our legislators raise a voice on this very vital issue. Our post-Vietnam timidity and preoccupation with election year rhetoric and Bicentennial celebration cannot allow us to passively grant to the Soviets another major portion of the world.

Donald S. McAlvany
2427 S. Krameria St.
Denver, Colo. 80222

This story had a happy ending when one considers that homes are often blown up because of leaking gas line. The gas line leading into the house could very well have been broken. I almost drove into the hole myself.

And this story teaches a lesson or two as it's apparent that the sewer-drain installation program will be around Van Buren Township for awhile. If similar washouts occur to someone else on a long weekend, the chance of getting immediate assistance is small. I took the risk of a ruptured gas line. Should someone else? And finally, I wonder what responsibility township and county officials have in cases like mine, if any.

W. N. Pentimaki,
Belleville

Happy resident extols paper, staff writers

To the Editor:

My many thanks (to the staff of Associated Newspapers) for the floral arrangement given to me on the occasion of my 80th birthday celebration and to The Belleville Enterprise for the very nice article in the March 17 edition.

Special thanks to Lee Smith and Dianne Ferguson for all their kind deeds over the years.

Katherine E. Spring,
Belleville

Hart is mum on successor

From Panax Washington Bureau

WASHINGTON — Sen. Philip A. Hart (D-Mich.) will not specify publicly the name of the Democrat he hopes will succeed him.

Asked by newsmen which candidate he favored in the field seeking the Democratic nomination to the U.S. Senate from Michigan, Hart replied:

"I would not presume to make an endorsement unless some fraud of a candidate entered the picture. All of those who have

announced as candidates are good friends of mine, and I have faith in each and every one. I'm glad the quality of the candidates is so good."

Some time ago Hart announced that he was retiring at the conclusion of his current term. In January, 1977, Michigan will have a new member in the Senate. The November election will determine whether that person is a Republican or Democrat. Naturally, Hart hopes a Democrat will win.

Sincerely,
Peter B. Fletcher,
Chairman,
Michigan State Highway Commission

Reform bill's backers cause its death

here who had spent more than a year of his life on the bill, "a case of putting a cancer-ridden patient out of its misery."

In the aftermath, people from both sides of the political aisle pledged to work now for a new, constitutional law. But the suspicion is the backers of the bill have used up most of their ammunition.

"Let's face it," said East Lansing attorney Zolton Ferency, an opponent of many sections of the bill. "They struck while the iron was hot last year and I think the iron has cooled off a hell of a lot since then."

What he meant was that the post-Watergate concern over morality and the appearance of morality in public office has waned as Watergate recedes into memory. Lawmakers here spent two years getting a bill passed. Now they are tied up with writing a balanced state

budget and with such new issues as collective bargaining for state police or for all state employees. They will be loath to go back over ground they covered so thoroughly once before.

Even if they wanted to, they wouldn't have the time to do it this year, with the elections coming up.

Common Cause was shot out of the saddle in terms of mounting a petition drive this year to put it on the ballot. They would have to come up with a new petition form that was legal and get 300,000 signatures. The time just isn't there, even if the inclination was.

The issues then, appears dead though it may twitch a few times before finally succumbing.

And it's all because its backers didn't read the rules in the constitution for writing legislation, or at least didn't understand them.

PANAX OPINIONS

Book about Nixon smacks of 'toilet bowl journalism'

By PATRICK J. BUCHANAN
Panax Special Correspondent
WASHINGTON — Some months back, there appeared on the shelves of city book stores a shocking volume by Barney Collier. It was about journalists by a journalist. Purportedly based upon interviews with the lions of the press, the book recounted the filthy stories and foul language of the famous, it probed into relationships with colleagues, friends, wives, mistresses, children.

The book was disparaged in the phrase of the moment as "toilet bowl journalism," its author dismissed as a renegade lout.

Well, will someone explain the ethical difference between what Collier did and the techniques employed by Woodward and Bernstein in their latest Watergate thriller: The Final Days?

Does this city applaud the apparently successful effort of our intrepid twosome to crack the doctor-patient relationship of Pat Nixon? Is "investigative reporting" reaching its finest hour when its two most celebrated stars get some backstairs maid or butler to blabber, for publication, on whether or not, in his final hours in office, the President or his wife took an extra drink? Does the "people's right to know" extend to the President's personal relationship with his wife?

What is the difference between ferreting out — for publication — such "facts" and rummaging for your news lead through the garbage cans outside the home of Henry Kissinger?

Is there no standard of journalism that cannot be set aside, no line that cannot be crossed, as long as the victim is Richard Milhous Nixon. The question the old lawyer put to Senator Joseph McCarthy would be better put now: "At long last... have you no sense of decency?"

When John F. Kennedy and his brother were crossing and re-crossing the limits of the law, and engaging in their own indiscretions, the "vow of silence" on the part of the national press obtained, "The Final Days," however, has put us squarely into a new era.

In the time of Walter Lippman and David Lawrence, the journalist or historian who sought to publish and

profit from the vulgarities, profanities, private epithets, emotional trauma or family relationships of a public figure would have been dismissed as a low-life or a scoundrel. Today, he is a hero of the New Journalism.

Today, it is precisely what the old journalists would discard that Woodward and Bernstein have lovingly scooped off the pavement, categorized, pressed between their pages and preserved for posterity.

Were all the angry cracks, pithy comments, and gossip fundamental to a definitive history, or understanding, of the dying days of the Nixon years? They were not. They were invaluable only if you have in mind squeezing the last dollar out of the rotting Watergate melon, encasing the memory of Richard Nixon in raw sewage, and titillating and amusing this cynical and jaded city which would relish nothing than every lurid detail of how its hated antagonist actually cried and — would you believe — fell on his knees and prayed in the closing hours of his destroyed Presidency.

Richard Nixon and Watergate simply won't go away," dolefully lamented the Post reporter assigned the promotional piece. You could almost hear the crocodile tears plopping on the page as he concluded, "the memory of his actions... still haunts our lives and invades our dreams."

But if Watergate won't go away, it is because this sick city won't let go. It was not Nixon who collaborated with Hollywood to recreate Watergate for the screen, and glorify the Post as bulwark of the Republic. It was not Nixon who timed, for maximum publicity and profit, release of the old paperback, the new hard cover and movie, who persuaded the Washington Post's compliant subsidiary, Newsweek to "break with tradition," and run 30,000 words of the Woodstein endeavor.

The Bible told that the dog would return to its vomit. And if this city is wallowing in Watergate again, it is because only in that particular sty can a particular elite relive its fondest memories, and find again, contentment, happiness and prosperity.

Key legislators close minds over 2 serious issues

By WES THORP
Panax Lansing Bureau

LANSING — Two serious pieces of legislation that would make life better in the Detroit area may not get a full airing this year because of a knee-jerk, emotional reaction from certain key lawmakers.

They have taken the attitude: "Don't confuse me with the facts. I'm against it, even if it would be good for my constituents."

The issues are tax base sharing and regional government. The lawmakers are, mainly, from southeastern Michigan, and the leader of the pack is State Sen. John T. Bowman (D-Roseville).

Bowman, a candidate for U.S. Congress, refuses to discuss either piece of legislation in a serious manner, so all the pros and cons can be laid in the open.

About tax-base sharing, Bowman said, "even if it helps Macomb County, I'm against it." He admitted that he wasn't familiar with the concept proposed by Gov. Milliken where local units of government in southeastern Michigan share in each other's commercial and industrial development.

The goal of the Milliken plan is to start an insurance policy, of sorts, for growing communities in the Detroit area. Every community would be assured that when it reaches the limits of its growth that it will be able to pay its own bills.

Such a plan has been implemented successfully in the Minneapolis - St. Paul area.

In February, a month after Milliken made the proposal, in his State of the State address, Bowman summarily dismissed the concept as being not acceptable.

He said, "If we want to retain local government, we should be aware of the ramifications of this bill." It's nothing but regional taxation and I'm against it."

That was it, as far as Bowman was concerned. He didn't see any need

for the legislature to debate or study the issue which has been described by its proponents as one sure way to save local government.

About regional government, he's more adamant. Bowman can react on the flick-of-a-finger, or mention of the word to the regional government bill that was introduced by State Rep. William Ryan (D-Detroit).

Bowman, when talking about regional government, conveys the impression that all local governments in the Detroit area would be swallowed up the moment the bill is passed, with the local police departments from Trenton to New Baltimore being replaced by a neo-Nazi regional police.

He paints a picture of the city of Detroit taking control of the region, with the Detroit mayor and his cronies pulling strings from their downtown offices.

Regional government proponents in the legislature, however, give a completely different picture. They point to a host of regional authorities that have control over certain governmental services and say that there is, already, regional government with regional taxes. They say let's make it more efficient.

Other metropolitan areas have implemented regional government, in some form, and have retained strong local units of government. These are generally the areas which are experiencing the most economic growth.

The Macomb County senator may be right or he may be wrong, but he and others are determined not to let the issue be placed before the public so the answers can be found.

There's a fear that if there's a full discussion of the issue, something good could be discovered about the issues which he has labeled as subversive for so long.

Meanwhile, the people in Macomb County and other areas around Detroit are barely coping.

Congressmen net top grade on small business issue vote

Michigan members of the U.S. Congress during the first session of the 94th Congress have come up with a good record on small business issues, an analysis of their voting record showed.

In a report issued this week by the National Federation of Independent Business (NFIB) it showed the voting records of members of Congress, with 78 of the 100 U.S. senators and 255 of the 435 House members voting 62 percent or more in line with small business positions on 15 key issues.

The positions were set last year in nationwide balloting by the 438,000 members of the NFIB.

The report of "How Congress Voted" includes congressional votes on the Agency for Consumer Protection, small business tax reform, energy taxation, the common site picketing bill, anti-trust en-

forcement, congressional revision of federal regulations and continuation of the Federal Highway Trust Fund.

In Michigan Sen. Philip A. Hart voted six times in favor of small business issues.

Of the favorable votes cast by Sen. Hart, all were in favor of the federation's position. He voted "no" on two of the 15 issues, which also favored the federation's position. He did not vote on three issues.

Sen. Robert P. Griffin had six pro-small business votes and voted "no" on five other small business issues. Both his yes and no votes were in favor of the federation's position. Sen. Griffin voted against two of the 15 issues. He did not vote on a third issue.

U.S. Congressman William D. Ford (D-15th District) had seven pro-small business votes, which were in concurrence with the position of the

federation. Rep. Ford voted against seven issues and did not vote in another.

The NFIB is the largest individual membership business organization in

the United States. Its diverse membership of 438,000 small businesses employ 3.3 million people and produces \$80 billion in good and services annually.

UM students gain academic honors

Eleven residents of the Belleville-Romulus community were honored during the University of Michigan's recent Honors Convocation Friday.

In total some 5,713 students on the college's Ann Arbor campus were honored, with 4,832 netting class honors, recognizing an undergraduate academic record equal to half A and half Bs for two terms — one term for new students — during 1975.

Receiving class honors were Romulus resident Linda Bradham of Cedar Grove, and Belleville residents Mariateresa Barzi of Church Street, Gail Berlin of Denton Road, Mark Fogarty of Ormond, Michael Humphreys of Sumpter Road, Darrell Kidd, Dennis Lochrie of East Huron River Drive, Robert Padgett of Geddes Road, Timothy Ryback of Sunrise Lane and Irene Woodbury of Ecorse Road.

Kymberly Hattaway of Ryznar, Belleville, along with her class honor, was picked as an Angell scholar.

Romulus man is outstanding

The son of Mrs. Helen Gallien, Louis, 11414 Olive St., Romulus, has been selected as an Outstanding Teacher in Training by the Indiana Council for the Society Studies.

Each year the council selects from each nominating college or university a student who plans to enter the teaching field in the area of social studies at the elementary or secondary level.

Eligibility requirements for the award include scholastic record, recommendation from the professor supervising the candidate's student teaching, participation in campus life, and potential for contributing to the teaching of social studies.

Gallien is a senior at Taylor University, a 130-year-old Christian liberal arts college located in Upland, Ind.

Belleville coed joins society

Belleville coed Shirley Durham is one of 43 business honors students at Eastern Michigan University (EMU) to be inducted into Beta Gamma Sigma, a national honor society.

Miss Durham of 18100 Elwell Road, is a senior majoring in management at EMU. She was chosen from the

top 10 percent of her class for the honor.

Miss Durham was inducted into the society during an EMU College of Business honors banquet.

To be named to the honorary society is the highest academic honor a business administration student can attain, an EMU spokesman said.

Church makes own color film

The production of a 16mm color motion picture, "Open The Door", recently has been completed at St. Paul United Church of Christ of Taylor.

The film will be shown at 7:30 tonight at the church, as part of an evening Lenten service.

The congregation has extended an invitation to all people in the community who may be interested in learning more about St. Paul Church and its

programs, activities and history, to attend this showing.

The film will allow those attending to see the complete story on St. Paul Church and what it is doing to offer a place for worship and fellowship.

St. Paul Church, located at Goddard and Telegraph roads, has been active in the area since 1883. Many members are from the Romulus community.

It's a date

Concert, church and school suppers set

BELLEVILLE — The Belleville High School Concert Choir will present a vocal concert at 8 p.m. April 13 in the high school auditorium. The program will highlight songs by American composers. The community is invited to attend.

BELLEVILLE — The Home Arts Club will hold its next meeting at 8 p.m. April 12 in the home economics room of North Junior High School. Dennis Hardy, an antiques dealer from Ypsilanti, will speak on and display several antiques. Members are welcome to bring small items which they might have questions on. Guests are invited to attend.

WILLOW — A family style chicken supper will be held starting at 5 p.m. and continuing until all are served April 14 at the Willow United Methodist Church, 36925 Willow Road, south of New Boston. The public

is invited to attend.

BELLEVILLE — The Quirk School PTO has set April 28 as the date for its pancake supper which will be served from 5:30 to 7:30 p.m. A cake walk and rummage sale will also be featured. Tickets currently are being sold by the fifth and sixth graders and will also be available at the door. Adult price is \$1.50; kindergartners through ninth grade and senior citizens, \$1; and pre-schoolers 75 cents. For further information, call Karen Juchartz at 699-7324.

BELLEVILLE — The Women's Study Club of Belleville will meet at 8 p.m. April 14 at the Lemontree Club House. The topic, in keeping with the Bicentennial, will be "The History of the Flag" presented by a guest speaker. Members are urged to bring guests.

BELLEVILLE — Bingo parties are held each Wednesday at St. Anthony's Parish. The public is invited to the weekly sessions which begin at 6:45 p.m. in the Father Folta-Building behind the church on W. Columbia Avenue.

BELLEVILLE — Overeaters Anonymous holds its weekly meetings at 7:30 p.m. each Thursday in the Belleville High School cafeteria, 501 W. Columbia Avenue. The public is welcome to attend. For further information, please call 697-7445 or 487-9339.

EDITOR'S NOTE: — "It's a Date" is open to all local non-profit organizations free of charge. Information for the column should be submitted by phone or mail by the Thursday before the issue in which it is to appear. Call Suburban Living Editor Lee Smith, 697-9191, or mail to 116 Fourth St., Belleville, 48111. Items will be repeated until outdated.

Florida vacationers return to 'winter'

By Mrs. Joseph Spring
699-4021

After having spent the past two weeks in Florida, Mr. and Mrs. Harold Harris of Belleville Road and Mr. and Mrs. Glenn Ritter of Bedell Street have returned home. While

there they visited several Belleville residents who were "wintering" in the Sunshine State.

Mr. and Mrs. Lloyd Orr of Harmony Lane spent last Thursday in Cleveland, Ohio where they visited their sister-in-law, Mrs. Floyd Orr,

who had undergone heart surgery at the Cleveland Clinic.

After having been a patient at Annapolis Hospital in Wayne, Mrs. Charles Fry is now convalescing at her home on Liberty Street.

Mrs. Fay Domenget of Des Plaines, Ill. has been a guest this past week at the Quirk Road home of her son-in-law and daughter, Mr. and Mrs. George Maki, and daughter, Linda.

Mrs. Muriel Smith of Liberty Street returned last Wednesday from three weeks spent in Florida. Making the trip with her brother and his wife, Mr. and Mrs. Cecil Benjamin of Fowlerville, they spent some time with relatives, Mr. and Mrs. Carl Brown of Ft. Myers; a sister, Mrs. Hazel Lindquist of Clearwater, and friends at New Port Richey.

On Saturday, March 27, they attended the wedding of a grand-nephew, Danny Ward, at Clearwater, and enroute home they visited the Benjamin's daughter, Janet, at Bellevue, Ohio.

On Saturday afternoon, March 27, Veronica Loechli, daughter of the Vic Loechlis of Tyler Road, celebrated her 12th birthday by entertaining eight school friends. Indoor games with special awards were played followed by lunch, featuring a special cake.

Mrs. Larry Miller of Mason and Mrs. Stanley Miller of Lansing were callers last Wednesday at the home of the former's father, Russel Price of Liberty Street.

Mr. and Mrs. Verne Clark of Bemis Road were weekend guests of former

Belleville residents, Mr. and Mrs. Harvey Marshall of Alpena.

On Saturday, March 27, members of the Southwestern Wayne County Retired Teachers Book Club from the Belleville community met for lunch at Bill Knapp's on Carpenter Road and later attended the Ethnic Exhibit at the Community High School in Ann Arbor. The April meeting will be held in Dearborn.

Mr. and Mrs. Charles McKelvey of Bemis Road spent the past weekend at East Tawas.

Mrs. Mildred Mackey of Detroit was a Wednesday evening dinner guest of her friend, Mrs. Dorothy Kellas of Margery Street.

Miss Lucille Webster of Dearborn was a weekend guest of a friend, Miss Florence Renton of Savage Road.

Mr. and Mrs. John F. Spring of North Bend, Ore., and Mrs. Joseph Spring of Liberty Street were Tuesday evening dinner guests of relatives, Mr. and Mrs. A. J. Hasse of Dearborn.

On Friday, March 26, Mr. and Mrs. Warren Hatch of Church Street were luncheon guests of the Senior Citizens' Club of Emmanuel Lutheran Church in Ypsilanti and later showed colored slides of their vacation trips through the United States.

Laura Orr of Westland spent the weekend with her grandparents, the Lloyd Orrs of Harmony Lane.

Mr. and Mrs. Rock Malloy and son, Chris, of Winnipeg, Manitoba, and

another son, Mark Malloy who is with the Royal Canadian Mounted Police in Rose Valley, Sask., returned home after a week-long visit with Mrs. Malloy's parents, Mr. and Mrs. William Graham of Liberty Street.

Send us your bridal information

Want to share that "special day" with those who are unable to be present in person for your wedding ceremony? We'll write the details of your wedding in story form for you — and at no charge — if you'll simply follow a few guidelines.

The Belleville Enterprise and The Romulus Roman offer bridal questionnaires for you to fill out as well as engagement forms for announcing the "start of it all." These forms include all the pertinent questions involved with your marriage or betrothal.

Forms may be picked up at our office, 116 Fourth St., Belleville (we're in the old Township Hall, side entrance) anytime during the week between the hours of 9 a.m. and 4:30 p.m.

We will also mail forms if a telephone request is made. Call Lee Smith, Suburban Living Editor, at 697-9191.

MISS BURKHOLDER

MISS MEDLEY

Engagements herald May, July weddings

BURKHOLDER-HARRIS

A May 15 altar date has been set by Connie Jo Burkholder and Randy William Harris, both of Fairview, Mich.

The young couple's engagement and approaching wedding date are announced by Mr. and Mrs. Paul Burkholder of Eaton Rapids, parents of the bride-elect who graduated from Eaton Rapids High School and then attended Fort Wayne Bible College for two years.

Her fiancé is the son of Mr. and Mrs. James Harris of 17509 Sumpter Rd., Belleville. A 1973 alumnus of Belleville High School, he attended Detroit Bible College for one year. Both he and his fiancée are full-time staff members of Camp Barakel in Fairview.

The First Baptist Church in Eaton Rapids has been reserved for the spring nuptials.

MEDLEY-JARVIS

Jacqueline Mae Medley and George H. Jarvis Jr., both of Belleville, are engaged and making plans for a July 24 wedding at the Willow Run Church of God in Ypsilanti.

Announcement of their betrothal is made by the bride-elect's parents, Mr. and Mrs. James B. Medley of 45240 Paris Dr., Belleville.

Miss Medley and her fiancé both are members of Belleville High School's class of 1976. She currently is employed at National Bank of Ypsilanti and he at Parkview Extended Care Convalescent Center.

The prospective bridegroom is the son of Mr. and Mrs. George H. Jarvis of 11153 Borgman, Belleville.

Include your number

PLEASE include a telephone number with any news item you send in or drop off at the office. Make sure it's a number where you can be reached during working hours (9 a.m. to 4 p.m.) It is important since quite often stories need to be verified or spellings on names have to be checked.

REMEMBER... a phone number, please!

Look-alike mates a fact

Folklore statement that husbands and wives tend to look more and more alike as the years go by may be more truth than lore. A recent university study indicates that not only do married couples look alike, they tend to act alike, have the same temperament and physical problems.

Researchers believe a major factor in this "togetherness" is that married couples eat virtually the same food throughout most of their lives. In fact, eating is probably the most common experience shared by members of a family.

Exact replica built in two weeks

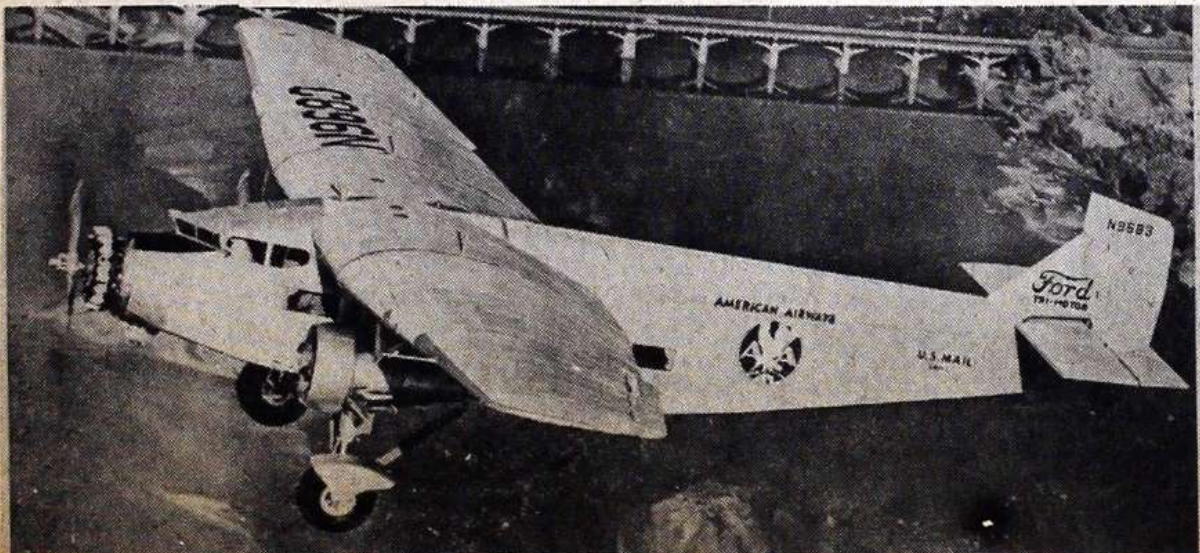

Belleville trio's tri-motor set for parade

Trio's tri-motor

Posing proudly with "their baby" after a mere two weeks of love and labor are this trio from Belleville — Ray Spino of Haggerty Road, Sam Morris of Wabash Street and Larry Crowley of Savage Road. The men, all employees of American Airlines, put together an exact replica of

American's Ford tri-motor built on a scale of 3 to 1. The plane (now being housed at the company's hangar at Metro Airport) will be featured in the May 2 Bicentennial Parade in Detroit. The plane is constructed entirely of wood with an outer shell of sheet metal.

The original

This is a profile view of the original Ford tri-motor built in Dearborn and operated in the early 30's by American Airways, the immediate predecessor of American Airlines. Drawing up their own blueprints and employing

a 3 to 1 scale, the Belleville men reproduced the plane and then had it transported to Metro Airport for safe keeping until its debut in the Bicentennial Parade.

By LEE SMITH
Suburban Living Editor

When friends and neighbors encountered Marge Spino of Belleville (a bus driver for the Van Buren School System), they often greeted her with, "Gee, it must be nice to be rich!"

And initially, Marge was at a loss to know what they were implying. But it wasn't long before she realized that passers-by had the idea that she and her husband, Ray, were building their own "private" plane on their lawn on Haggerty Road.

That particular private plane just happened to be under construction for a much larger firm than the Spino Corporation. In fact, it became the property of American Airlines when it was transported March 28 to a special hangar at Metro Airport courtesy of a flatbed trailer supplied by Larry Boelter of Boelter's Welding in Belleville.

The plane, which was housed on property belonging to the Spino's and their neighbors, the Larry Crowleys (who reside around the corner on Savage Road) is an exact replica of American's Ford tri-motor. The plane, built in Dearborn, was operated in the early 1930's by American Airways, the immediate predecessor of American Airlines.

The freshly-built model, geared to a scale of 3 to 1, will be the American Airlines employees' entry into the "World's Largest Parade" scheduled for May 2 in Detroit.

Spino, Crowley and another fellow

airlines employee, Sam Morris of Wabash Street, Belleville, had to draw up their own blueprints and work entirely on their own time. Authenticity was kept foremost in this complete employee project which included not only original drawings but layouts, colors, lettering and tire size.

Completing the project in a mere two weeks (despite weather conditions) the men constructed the plane (including the motors) entirely of pine and then covered it with an outer shell of sheet metal. And, just to keep the record straight, the wings (which were detachable) made it possible for the "model plane" builders to move their "baby" into the Spino's garage when the elements became too uncooperative.

The original tri-plane was built between 1928 and 1935 and its duplicate

completed between March 12 and March 28, 1976.

Project coordinators were Morris, facilities maintenance supervisor, and Ben Stefaniak, aircraft maintenance supervisor and Bicentennial committee member. Special detail work and construction were by Spino and Crowley, both facilities maintenance mechanics, with Morris as their third man.

The enthusiasm and interest in the employee project was assisted by an American Airlines retiree, L. "Frenchie" Le Cour, who was with the airlines for 15 years.

When people exclaim at or disbelieve that the plane's construction took but a mere two weeks, the men come back with, "We're American Airlines — doing what we do best!" (Does that have a familiar ring?)

Pullen family tree has two additions

The S. K. Pullens of Elwell Road, Belleville, have added two new branches to their family tree and both within one week.

First off, their daughter and son-in-law, Sandy and David Marlowe of E. Huron River Drive, Belleville, presented them with their second grandson, Scott Ryan, who put in his appearance March 26 at St. Joseph Mercy Hospital in Ann Arbor.

The 5 lb., 15 oz. newcomer arrived at 11:42 p.m. and measured 18½ inches.

The couple's first child, he is also the grandson of Mrs. Dorothy

Marlowe of Cogswell Road, Romulus.

Then on the afternoon of April 1, the Pullens received word of the birth of their first granddaughter.

The newest addition to Jack and Shirley Pullen's family, Amy Renee made her debut at Youngstown Osteopathic Hospital in Youngstown, Ohio where the family resides.

The 6 lb., 12 oz. infant has a big brother, Jeffrey Bryan, two, who has been the guest of his grandparents in Belleville for the past week.

Mr. and Mrs. James Wimmer of Fulton, Mo. are the children's maternal grandparents.

Women in Business confab set

The second annual Conference on Women in Business will be sponsored by the College of Business at Eastern Michigan University on April 10. The session will be held at the Marriott Inn of Ann Arbor beginning at 8:30 a.m.

Mary F. Robek, professor of administrative services and business education, and Edith Phillips, associate professor of marketing, are co-chairing the program.

The 1-day conference for women trailblazing in a man's world toward positions in management and administration is open to women in business, education, government, hospitals, churches, civic groups and professional organizations. It will also help women just entering business to prepare for increased responsibilities of management and administration positions.

Men attending the conference will become more fully aware of the potential utilization of women in business.

The cost of the 1-day meeting is \$15 and includes both morning and afternoon sessions, luncheon and coffee breaks. To register, send a check to Dr. Mary Robek, 515-N Pray-Harold Building, Eastern Michigan University, Ypsilanti, Mich. 48197. For further information, call 487-3410.

Tips for the homemaker...

You're all set to use that maple syrup for your Sunday morning pancakes and you find it with mold on top or with a cloudy appearance. What do you do?

You're marketing and decide you'd like a couple avocados. BUT, how do you know for sure if the one you pick is ripe?

The U.S. Department of Agriculture Consumer and Marketing Service has come up with answers to many a problem including the aforementioned.

Getting back to the syrup, they advise that one gallon of maple syrup must weigh at least 11 pounds. If the syrup is not this concentrated, it is apt to sour. If it is boiled down beyond this point, the syrup may form sugar crystals. If this should happen, just place the container of syrup in warm water and the crystals will dissolve.

The syrup should also be kept in sealed containers at room temperature. But once opened, store in the refrigerator.

If syrup is purchased in gallon containers, remove it from the can, heat to boiling, and then seal it in smaller sterilized glass jars. If the

syrup should mold, skim it off, heat to boiling and skim again. The cloudy appearance will settle out and the syrup will not be affected. There is no need to throw it out for either cloudiness or moldiness.

How do you tell if an avocado is ripe?

Pinching has been the answer for centuries but now there's a better way to test their readiness. To take the guesswork out of choosing ripe avocados, and reduce the costly waste of pinching, California marketing specialists developed a sticker that changes color to indicate ripeness. The royal purple sticker is attached to an avocado after it is picked. As each avocado ripens, gases go into the attached sticker and turn from purple to bright yellow signaling "ripe."

Market tests conducted last summer show this system of judging ripeness is now 85 per cent effective. Work on the project is continuing to improve the accuracy of the indicator to at least 95 percent before putting it into general use.

The sticker will enable consumers to pick ripe avocados without handling and bruising those that are not ripe. Also, the bright yellow marker

will indicate the ripeness of the fruit so that it is not overlooked and left to spoil.

This new method of judging ripeness of avocados is the result of a study made by the California Department of Agriculture. The study was part of a market development program conducted under the Matching Fund Program of the U.S. Department of Agriculture's Consumer and Marketing Service.

IRS offers help

Want assistance in making out your income tax for 1975?

Now is the time to file when quick help is available rather than wait until near the April 15 deadline for filing, according to Internal Revenue Service (IRS) officials.

Two million Michigan taxpayers already have filed their federal income tax returns, and more than 1½ million already have received refunds totaling \$720 million. But IRS officials expect 1.4 million returns to be filed in the next 3½ weeks.

IRS officials suggest taxpayers don't wait any longer to file since they can get virtually "no-wait" help now. However, that will change as the April 15 deadline nears.

About five weeks is the current wait for refunds.

Fire fighters in the area reaped the fruits of their recent 66-hour volunteer

stint as students during a graduation dinner-dance March 26 at Belleville's Father Folta Building.

Thirty men were awarded certificates from the State of Michigan

Fire Fighters Training Council. Art Apel, executive secretary from the Lansing council, made the presentation after speaking on the importance of training programs for

volunteers. He stressed the fact that the state is not fulfilling its obligation in seeing to it that these instructions and classes are held. And, despite the fact that volunteer departments protect state buildings and lands, the state does not contribute one cent toward the payment or education of the volunteer fire fighter.

In order to further their knowledge of the latest in fire fighting techniques, local fire units instigated a program last fall which was held for 22 weeks on a strictly voluntary basis — the men received no pay for their weekly 3-hour sessions.

Interested parties from the Belleville and Sumpter Fire Departments and both the Van Buren Township Departments took part in the classes conducted by Lt. Robert Matthies, a certified class A instructor for the Michigan State Fire Fighters Training Council. He himself, is a member of the Ypsilanti Fire Department and is the city's fire inspector as well.

Matthies led an 18-hour class in Belleville some two years back for which the city picked up the tab. The group decided later to apply for the 66-hour course which is funded by the state. They invited their neighboring fire departments to join in, making it a community effort.

The men not only shared the in-

struction but, by rotating their meetings, learned what was available in each department; thereby becoming familiar with each others' equipment.

Using the 226-page manual, "Fire Service Practices for Volunteer Fire Departments," prepared by the International Fire Service Training Association (IFSTA), the men were tested periodically on the contents. Among the many chapters they covered were those on ventilation practices, forcible entry techniques, fire service rescue and protective breathing practices, the use of proper tools and fire service rope practices. They also put their skills to use by actually putting an old building to the torch and then fighting the blaze, "according to the book."

The Detroit Edison Co., Michigan Consolidated Gas Co. and the Department of Natural Resources also had a hand in the program when they sent representatives to speak and show films on electrical safety and rural type fire fighting.

Tony Talaga, Belleville fire chief, acted as a master of ceremonies at the banquet and presented Lt. Matthies with several gifts in appreciation from his students. He also introduced local dignitaries attending including Belleville Mayor and Mrs. Justin Emerson, Van Buren Township Supervisor and Mrs. Elton Gollwitzer, Wayne County Commissioner and

Mrs. Royce Smith, Belleville Fire Commissioner and Mrs. Robert Tontalo and Van Buren Township Fire Commissioner and Mrs. Darwin Kureth.

The following volunteer fire fighters received certificates: Bob Schank, Jack Loria, Gary Koepp, Oscar Fredericks, Bob Baker, Ray Memering, Norman McNally, Jerry Bies, Bob Mason, Frank Gunia, Gary Fulton, Jerry Warsop and Chief Tony Talaga, all of the Belleville Fire Department.

Others included Dave Remus, Brad Traskos, Bert Smith, Dick Trevorow and Chief Gene Miller of Van Buren Township Dept. No. 1; Bob Clark, Roger Fry, Clinton Brown, Timothy Toohey, R. Hollenbeck and John Cicotte of Van Buren Township Dept. No. 2 and Jim Patterson, Fred Collier and Ron Brown of the Sumpter Fire Department.

Also devoting 66-hours of their time to the training were Robert Tontalo, Belleville councilman and fire commissioner; Leonard Bourdeau, a Van Buren Township policeman, and Mike O'Callaghan, a mutual aid volunteer.

After congratulating the graduates, the 160 guests attending rounded out the evening by dancing to the music of The Show Stoppers. In keeping with the country's birthday anniversary, the hall was decorated in a patriotic motif.

Fire fighters graduate

The Belleville, Van Buren and Sumpter communities are now richer by 30 professionally trained fire fighters who recently completed a 66-hour course under the direction of a certified class A instructor for the Michigan State Fire Fighters Training Council. At a dinner-dance graduation celebration March 26, the men received certificates for their 22-weeks of volunteer classes. Pictured standing (from left) are Dave Remus, Tony Talaga, Gene Miller, Brad Traskos, Timothy Toohey, Bob Clark, Bob Schank,

Jack Loria, Jim Patterson, Fred Collier, Norm McNally, Roger Fry, Clint Brown, Bert Smith, R. Hollenbeck, Gary Koepp, Oscar Fredericks and Dick Trevorow. The front row includes John Cicotte, Lt. Bob Matthies (instructor for the session), Bob Baker, Leonard Bourdeau, Ray Memering, Jerry Bies, Bob Mason, Frank Gunia, Jerry Warsop and Belleville Fire Commissioner Robert Tontalo.

In appreciation

Among the more "dignified" gifts presented to Lt. Bob Matthies at a dinner-dance March 26 were two plaques carrying out the firehouse theme. Lt. Matthies received recognition from the volunteers of the Belleville, Van Buren and Sumpter Fire Departments in ap-

preciation for the 22-week course he conducted in the area. Some 30 men took part in the strictly voluntary schooling sponsored by the Michigan State Fire Fighters Training Council, Belleville Fire Chief Tony Talaga (background) was emcee for the evening.

Among the graduates

Belleville Fire Commissioner Robert Tontalo was among those awarded a certificate for his part in the recent fire fighting classes held at fire stations throughout the community. He and his wife, Betty,

also played an important role in arranging the graduation dinner-dance held March 26 at the Father Folta Building. Some 160 members, guests and dignitaries attended the festivities.

May bride-elect feted at shower

A miscellaneous bridal shower was held recently for May bride-elect Dawn Jaddatz of Romulus. Hostesses were the prospective bridegroom's mother and grandmother, Mrs. Elizabeth Wellard and Mrs. Mary Pokerswinski, as well as the four future bridesmaids, Kathy Eldred, Sandy Guntow and Tyanne Poindecker, all of Romulus, and Kathy Wellard of Belleville.

Some 125 guests arrived at the Moose Lodge in Belleville with the future bridegroom's two aunts, Mrs. John Gage of Cranestown and Mrs. John Grzaski of Girard, arriving from Pennsylvania for the occasion.

Others were from St. Clair Shores, Romulus and Belleville.

Handmade ceramics were given as prizes along with the hurricane candles and ceramic bride and groom which graced the bridal table. The items were made by Mrs. Wellard and Mrs. Pokerswinski who served a full-course buffet supper after the bride had opened her gifts. Mrs. Pat Jaddatz of Romulus, mother of the bride, assisted amid the yellow and white wedding theme decorations.

Dawn will become the bride of Elden Earl Young of Belleville on May 29 in Trenton.

Junior Study Club names Barb Boelter as new president

Election of officers was the main order of business at the March meeting of the Belleville Junior Study Club. Shar Tator was hostess to the group at her home on High Street.

Four new members were welcomed into the club during a candlelight initiation ceremony conducted by Carol Fitch, president. Sandy Lauth, Cookie Scarano, Debbie Flavell and Rea Clark were added to the mem-

bership roster.

Following a report on the recent card party, the group voted to donate \$300 to the Belleville Bicentennial Park Project.

New officers chosen for the 1976-77 season are Barb Boelter, president; Suzie Druker, vice-president; Shar Tator, treasurer, and Phyllis Smith, secretary.

Quotes worth quoting...

"I think the great strength of friendship consists more in liking the same things than in liking each other."

Henry W. Shaw said it

TALKING IT OUT

with
Harold Rediske

UHT Memorial
Funeral Home

Should children attend funerals?

As members of a home in mourning, children must be allowed to express their own grief just as fully as adult members. We violate their rights if we forbid them this natural, emotional outlet. Mourning is a part of growing up, of maturing. To deny the child this emotional experience is to stifle his natural development.

Generally, a child can deal with a loss far better than one might expect. After giving full vent to his feelings, a child can become a bit more mature. He has seen, grieved, and recovered. A child's emotional resiliency is remarkable. With adequate preparation, a child may be permitted to attend the funeral, and be all the better for it. The child, as a family member, shares the grief, feels the loss. He or she gives support and receives it in return from his family at the time of mourning.

Sense of belonging
The child sees and feels with all those who are around him. He has a sense of belonging which only the common bond of grieving together can provide. But the child must be told what to expect at the funeral. The child who understands what he is soon to experience is that much more likely to be at ease, or, at least, somewhat less disturbed.

Under no circumstances should a child be forced to attend the funeral. In fact, if you can anticipate that the child might be given to hysterical outbursts, it might be good judgement to keep the over-sensitive child at home. After the funeral, the child might be asked to join with the family and share their grief, thus enabling him to express his own feelings.

What price Freedom?

OR
HOW DO YOU
pay off
the WAR of
Independence?

Our heroes were running out of oats. Our soldiers, out of bullets. And the revolution, out of steam. We needed some money fast, but the Continental Congress had no power to tax.

So we asked investors to pitch in. And they did. With over 27 million dollars.

Today, it costs even more to keep things running, to hold on to the freedom we won. And the way to pitch in now is through U.S. Savings Bonds.

And when you buy Bonds, you're not only helping your country, you're helping yourself.

Just sign up for the automatic Payroll Savings Plan at work.

Or buy Bonds at your bank.

U.S. Savings Bonds. A great way to keep our country, and you, in the running.

Now \$1000 per \$1000 of which half is matched by the U.S. Gov't. (The first \$500 is not subject to state or local income taxes, and is held for you by the U.S. Treasury.)

Take stock in America.

200 years at the same location.

MUSICAL NOTES

by Doug Brown

If your school has a band without a glockenspiel, they should get one. Fun, easy to care for, and fairly simple to play. The glockenspiel is a percussion instrument, made of a series of steel bars which are tuned to the chromatic scale. To play the glockenspiel you need a pair of instrument hammers, and a small amount of training. The instrument has a range of two to three octaves, and it gives out a brilliant, high-pitched, bell-like tone. The marching glockenspiel has its bars mounted in a lyre shaped frame, and the instrument is carried upright.

DOUG BROWN MUSIC, 9219 S. Wayne Rd., Romulus, will suggest many different kinds of music for any occasion. Whether it be traditional or a little different, our ideas are worth sharing with you. Complete repair service on all instruments. Rental plan available. Everything in music is found at DOUG BROWN'S ... Phone 941-8484.

It is often possible to rent musical instruments until a permanent decision is made as to which one you would like to learn to play.

VB man completes military weapons course

A Van Buren Township man has recently completed training in an U.S. Air Force nuclear weapons course. He is Airman John W. Weipert, the son of Mr. and Mrs. Joe Skolnik of 9865 Van Buren, Van Buren Township.

Airman Weipert was trained to assemble and repair nuclear weapons as part of a nuclear weapons specialist course.

Completion of the course not only trains the airman in the defense of his country, but also enables him to receive academic credit through the Community College of the Air Force.

Airman Weipert, a 1975 graduate of Belleville High School, took his training at Lowry Air Force Base, Colo. but will be assigned for permanent duty at the K.I. Sawyer Air Force Base in Michigan.

Also in the armed forces: Navy Fireman Appren. Michael M. Kucish, the son of Mr. and Mrs. John Kucish of 42065 Van Born, Belleville, has graduated from the Basic Enlisted Course at the Naval Submarine School at Groton, Conn. The 6-week course includes instruction on the operating principles

AIRMAN MICHAEL WORRA

of nuclear-powered and diesel submarines; shipboard procedures; control, support and weapons systems; damage control equipment; and submarine safety.

A 1975 graduate of Belleville High School, he joined the Navy in September 1975.

AIRMAN GREGORY CARRIGAN

Navy Fireman William Patton McDavid, the son of Mr. and Mrs. Olaf S. McDavid of 30362 West Road, New Boston, was graduated from recruit training at the Naval Training Center at Orlando, Fla.

Classes include instruction in

seamanship, military regulations, firefighting, close order drill, first aid and Navy history.

A 1975 graduate of Faithway Baptist High School of Ypsilanti, he joined the Navy in December 1975.

A 1975 graduate of Huron High School has completed his basic training in the U.S. Air Force and is preparing for his specialists training in aircraft maintenance.

Airman Gregory W. Carrigan, the son of Mr. and Mrs. Billy M. Carrigan of 40829 Judd Road, Huron Township, has completed his basic training at Lackland Air Force Base, Tex. and will go on to his specialists training at Sheppard Air Force Base, Tex.

During his basic training the airman studied the Air Force mission, organization and customs and received special instruction in human relations.

A Belleville man has been selected for technical training in the U.S. Air Force in the field of avionics systems.

He is Airman Michael J. Worra, the son of Mrs. Lyla Worra of 250 Liberty St., Belleville.

Airman Worra has recently completed his basic training at Lackland Air Force Base, Tex., where he studied the Air Force mission, organization and customs and received special instruction in human relations.

A 1973 graduate of the American School of Vientiane (Laos), Airman Worra is married to the former Pamela Pardon, the daughter of Mr. and Mrs. Bobby Pardon of 2117 Margery St., Ypsilanti.

A Sumpter Township Air Force enlistee recently graduated from Chanute Air Force Base, Ill., after completing his training as a jet engine mechanic.

He is Airman John Morrell, the son of M.R. AN

He is Airman John M. Morrell, the son of Mr. and Mrs. M. Morrell of 13675 Sumpter Road, Sumpter Township.

A 1972 graduate of Airport High

School, Airman Morrell has been trained to inspect and repair turbojet and gas turbine engines.

He will be assigned to Pope Air Force Base, N.C. for duty with a unit of the Military Airlift Command.

WCRC curtails programs; Less revenues cause cuts

The Wayne County Road Commission isn't the only county road agency which has been forced to curtail road improvement programs during at least the past two years.

County road agencies throughout the state are cutting back severely on road maintenance and construction, according to a new Michigan County Road Association survey.

Earl Rogers, engineer-director for the state-wide association, said 70 percent of county road commissions responding to the recent survey have reduced winter snow and ice removal operations to avoid overtime expense.

During the recent 6-week period of almost daily snowfall, Wayne County Road Commission salt reserves fell to such a low that county crews were held back from spreading salt during

light snowfalls at low priority times in an effort to save the reserves for more critical times.

In addition, during the past two years, the Wayne County agency has had to curtail its planned highway improvement program to save money.

Rogers said shrinking gas and weight tax revenues from state and federal gas taxes are shrinking at the same time costs for materials and equipment are soaring.

The average increase in costs, according to Rogers, has gone up at a 10 percent per year rate since 1973.

And while direct county work is

slowing throughout the state, work at the local level is suffering because local communities are not receiving matching county funds for road improvements.

"County road commissions have been caught between shrinking budget funds and inflated costs of operation," Rogers said. "Many county agencies are cutting down on the amount of money spent for equipment to pay for materials."

However, according to Rogers, the trend is dangerous because agencies which cut back on equipment expenses are risking greater breakdown costs and less efficient operations.

Four survive train collision ; Freight clips auto's fender

Four men narrowly escaped death recently when a van in which they were riding was struck by a 28-car freight train near New Boston.

William Arthur Lunsford, 22, the driver of the van, and Leigh Lathrop, 20, Thomas McGowan, 29, and Kenneth Decker, 25, were injured and transported to the hospital after a northbound C and O freight traveling at 30 miles per hour struck their van on the right front fender as it was leaving a driveway near a railroad crossing at Judd Road.

According to Ptrl. Joseph Carney, the Huron Township officer who answered the call, the four were leaving a construction company at 10:40 a.m. March 27, after learning their work day had been cancelled due to poor weather.

The officer said the four apparently did not see the freight train on the tracks in the rain and were struck near 21110 Rust Road, just north of New Boston.

The Huron Rescue Squad transported two of the victims to Seaway Hospital in Trenton and a private ambulance company transported the other two to the hospital.

One of the victims was thrown from the van.

Both Lunsford and Lathrop were treated and released from the hospital.

The other two victims were listed in satisfactory condition after treatment.

According to the patrolmen at the scene, the van in which the four were riding was thrown approximately 30

feet down the C and O track by the train.

However, the spokesman said the four were fortunate that the train hit the front fender of the van, spinning it clear of the train.

A 28-car train with locomotive could weigh as much as 2,800-tons — approximately the same as a small ship.

EMU stages 'Picnic' play

The Eastern Michigan University Theatre will continue its Bicentennial drama season with William Inge's "Picnic."

The play will run tonight through Saturday, with performances at the EMU Quirk Auditorium scheduled for 8 p.m. each day.

Reservations and information on the play is available by calling the auditorium ticket office at 487-1221 between 12:30 p.m. and 4:30 p.m. daily and until 8:30 p.m. on performance nights.

WMU actor helps in training program

Thanks to the efforts of a group of student actors from Western Michigan University (WMU), it will be easier to train employees to deal with mental patients at the Veterans Administration Hospital in Battle Creek.

The students, including Stephan Kertesz of Vining Road, portrayed patients and employees for a series of education television programs. Since last November the students

have worked on four video tape productions which will be used to show hospital employees how to care for patients in varying states of mental illness and emotional problems.

The WMU students who are performing in the productions were selected because they are especially good at improvisations — the ability to take the roles of patients or staff members in a given

situation without any written script — a WMU spokesman said.

Romulus in running for research center

Westland and Romulus have been placed into national contention as the possible sites of a federal solar energy research center.

The Wayne County Board of Commissioners at a recent meeting unanimously voted to make available as possible locations three tracts of county-owned land, located in the cities of Westland and Romulus as well as Northville Township.

Twenty seven other states are vying for the Solar Energy Research Institute (SERI). The \$20 million dollar center has a projected annual budget of \$50 million and would employ 1,500 persons.

Commissioners John Barr, of Dearborn Heights, who is vice-chairman of the board of commissioners said, "I am enthusiastic about the prospect of having a project like this located in our community. Not only will it employ 1,500, but it will have a ripple effect on other businesses in Wayne County."

Commissioner Thomas Presnell, of Westland, who also favors the project, pointed out that Wayne County area is strong in labor support, available industry, top-rated academic institutions and good transportation.

Commissioner Mary Dumas, who represents the Livonia-Northville area, concurred, "Our prospects are quite good if we can all work together and effect enough influence at the Washington level to support our case," she said.

Plans are being formulated for an all-out campaign to bring the center to Michigan. The Michigan Energy and Research Association and the board of commissioners are working together to make a presentation highlighting the advantages here.

It is expected that the Federal Energy Research and Development Administration will narrow down its selection list to five or six prospects this summer and make its selection by fall.

"I have studied the criteria for the Solar Research Institute and found that it would be an asset to any community," Commissioner Royce E. Smith, of Belleville, said.

"It will be a beautifully landscaped, architecturally attractive scientific laboratory," he added. "There will be no pollution of any kind and the projected salary structure of its employees assures me that Western Wayne County would benefit greatly from having SERI located there."

The sites under consideration for the construction of SERI are: A 500-acre tract, located across from the Child Development Center, in Northville, a 338-acre tract in Romulus, and a 250-acre tract, located across Michigan Avenue from the Wayne County General Hospital in Westland.

"We all know that the United States has not been self-sufficient in supplying its own gas and oil," Commissioner Edgar Harris, of Taylor, said. "We have become increasingly dependent on foreign countries for our fuel. It is imperative that we explore alternative sources of energy. I support research in solar energy which is ecologically more desirable to nuclear energy," he stressed.

It was stated that many states vying for the SERI have emphasized their abundance of sunshine. However, the National Academy of Sciences has advised that climatic and environmental conditions should be disregarded since much of the work will be done by simulation or modeling, and by temporary satellite laboratories when required.

South league set for team tryouts

Tryouts for the Romulus South Little Baseball League are scheduled for Saturday and April 17 at the Romulus North Junior High School.

Tryouts for 9 and 10-year-old players are scheduled for 10 a.m. Saturday at the junior high, while 11- and 12-year-olds are scheduled to show their skills at 10 a.m. April 17.

Although tryouts have been scheduled, players aged 8-18 still have an opportunity to register for little league play this year by calling either 941-1037 or 941-3914.

The Romulus South Little League is designed to provide baseball recreation for youngsters living south of the I-94 freeway in Romulus.

For Bicentennial extravaganza

Parade planners begin 200th countdown

The countdown has begun. The super Bicentennial parade, sponsored by Wayne County, is just a few weeks away.

At 12 p.m. May 2, the first Bicentennial float, entered by the Ford Motor Co. will head out the gates of

the Michigan State Fairgrounds, leading what Parade Chairman Erv Steiner predicts will be the "world's largest parade."

The Ford float will lead a procession of more than 200 floats, 50 bands and

300 antique autos down Woodward Avenue.

"Jonathan Livingston Seagull would love this parade," Steiner said. "It's got color, elegance, spirit and sheer variety."

"There'll be birthday cakes, statues

of Liberty, rocket ships and liberty bells, portraits of black history, a German sailing vessel, a Greek parthenon, and almost every ethnic group from the Polish to the Maltese will sponsor a float saluting this nation's 200th birthday."

He added: "This isn't just a county event. We've got floats coming from Bay City, Greenville and Frankenthum. And high school bands from towns like Beaverton, Ida, Lansing, Central Lake, Jackson and Flint."

"The floats that are being designed are highly imaginative and will carry an assortment of American figures, both real and fictional," Steiner said. "We'll see George Washington and Betsy Ross — but also Rip Van Winkle, Hiawatha and Mickey Mouse."

Steiner added that musically the parade would offer everything from hot jazz to a banjo-playing family from Grosse Pointe, sitting atop an antique fire engine. And traveling up and down the 9-mile-long parade route will be hundreds of clowns.

Steiner, chairman of the Wayne County Bicentennial Committee, had

the idea last year to stage a super festive event that everyone could take part in. Working with him are county Commissioners Maxine Young (D-Detroit) as vice-chairman and William Suzore (D-Lincoln Park).

Mrs. Young is organizing a special float for senior citizens from Michigan, and has invited all senior citizens, age 65 and over, to ride on it. She is encouraging children to recommend their parents for the honor by calling her office at 224-0914.

Steiner credits a huge staff of volunteer coordinators for bringing in a great number of float applicants, representing business, labor, government, ethnic, civic and community organizations.

To enter the Wayne County Bicentennial Parade, write Erv Steiner, at 726 City-County Building, or call 224-5025.

Society to perform Mozart

The Dearborn Choral Art Society will present its eighth annual Spring Concert, Sunday at 4 p.m. at the Mt.

Olivet Church, located on Horger at Colson in east Dearborn.

The chorus and orchestra, under the direction of George T. Still, will perform Mozart's "Requiem Mass." In a lighter vein, the chorus will conclude the program with Brahms "Liederslieder Waltzes."

Guest soloists appearing in the concert will be Angie Prevoux, Harriett Schneider, Robert L. Cassidy and Thomas Murphy.

Orchestra. There, he studied with Andrew Field and with Gene Greenwell in Lansing.

The Dearborn Choral Art Society also will participate in the city's "Bicentennial Jubilee Days" at Ford Field Aug. 22 and in the "Music every Wednesday" series, featuring show tunes from Cole Porter.

All interested vocalists wishing to participate in the summer program, can contact the Dearborn Recreation Department at LU 4-1200, ext. 263, for rehearsal information.

Parking for the concert Sunday will be two blocks east of the church at Neckel and Colson, with a mini-bus shuttle to the church.

Program continues

Odetta, singer of African folksongs, and The Brazeal Dennard Chorale, one of Detroit's top gospel choruses, will perform "The Sound of the Spiritual," at the Music Hall center for the Performing Arts at 6:30 p.m. April 11.

Miss Prevoux, a soprano, received four years of vocal training at the Detroit Conservatory of Music and has been an active member of the Dearborn Choral Art Society since its inception in 1968.

Miss Schneider, an alto, is a versatile musician who received her bachelor of fine arts degree from Stevens College in Columbia, Mo., and continued graduate studies with Harold Haugh at University of Michigan. Other performance experiences include a summer of solo work with the Chautauqua Opera Company in New York and in the Detroit Institutes production of "Mikado." A Plymouth Community Chorus member, she sang the soprano solo of the Dearborn group's previous concert, "Lord Nelson Mass."

Cassidy, a tenor, is a native of Scotland. His first solo part was in the opera "Faust." After coming to Canada, he studied eight years at the Toronto Conservatory with Dr. Ernesto Vinci and sang in various theatrical productions. He has soloed with the Dearborn chorus in the "Messiah" and in the "Music every Wednesday" series, during the city's summer program.

Cassidy, a Westland resident, also has been associated with the Schoolcraft Choir, Ann Arbor Cantata Singers and Detroit Concert Band.

Murphy, a multi-talented baritone, received his bachelor of arts degree at Notre Dame University and a master of fine arts degree at the University of Portland. He received his vocal training at the Royal Academy of Music in London, England, where he sang with the London Symphony

"The Sound of the Spiritual" is the second program in Music Hall's original series, "Music of the Black Church," written by Wayne State University's Percy L. Moore. The 4-part series in music and narration traces 350 years of an American musical art form that still is evolving.

In the April 11 program, Odetta and The Brazeal Dennard Chorale will illustrate in song what happened when black Africans, enslaved in early America, discovered the Christian church and made from it their own kind of music — the Spiritual — that became the primary form of emotional expression.

Doug Morison will narrate this moving program. Odetta will sing the African folksongs that are a natural heritage, and Brazeal Dennard's Chorale will perform the spirituals that began gospel music in America, 100 years before the United States was created.

Two other shows are scheduled for this series. May 23, Martha Jean "The Queen" will narrate a program, featuring Jerry Thomas and The Gospel Experience and Nat Townsley and The Lighthouse Ensemble in "The Sound of Contemporary Gospel." On June 13, WCHB's Bertha Harris will narrate and The Howard Lemon Singers and The Voices of Tabernacle will perform "The Sound of Progressive Gospel."

Special groups discounts are available by calling 963-7622. Individual tickets may be purchased by calling 963-7680.

'Winkle' revived

The Greenfield Village Players will revive their production of "Rip Van Winkle" for the Easter season in the Henry Ford Museum Theater, beginning Saturday.

Last presented by the Players in 1968, this version of Washington Irving's timeless tale was adapted for the stage by Joseph Jefferson in 1865.

As both author and star, Jefferson toured the country with the "Rip Van Winkle" company for 30 years. The role of Rip became the mainstay of his repertoire as the play was of the American theater.

The story behind the play is a familiar one. Rip Van Winkle, a jolly, but slightly lazy Dutchman, goes to sleep one night in the Catskill Mountains and wakes, 20 years later, to find everything — including the country's ruler — has changed. Nevertheless, he manages to find his way home just in time to save his wife and daughter from a scheme to cheat them out of his property.

Matinee performances of "Rip Van Winkle" are set for 2 p.m. Saturday and April 17 and 19-24 and May 1 and 8. Special performances for school groups will be staged April 12-15 at 10 a.m. and 12:30 p.m.

For additional information, or to make reservations for school groups, contact the Travel and Convention Department, Dearborn 48121, or call (313) 271-1620, ext. 264.

Proud winners

Displaying the trophies they won during the annual Michigan State 1976 Championship Contest of the Michigan Accordionists Association are Mary Lynne Courtney, 11 (from left, front), Ted Wisniewski, 13, Brenda Rise, 11, Jack Bryan 10 (from left, rear), Debbie Meek, 13, and Mary Drobot, 9. The students learned their skills from the competition of the teaching team of Diane and Carolyn Bonanni. — ANP photo.

Musicians receive accordion accolade

Several area youngsters, studying the accordion, received honors during the annual Michigan Accordionists Association championship competition. Ted Wisniewski, 13, Brenda Rise, 11, Jack Bryan, 9, Mary Drobot, 9, Sheila Eversole, 12, and Marylynne Courtney, 12, took honors during the event. The children along with Debbie Meek, 13, are students of Diane and Carolyn Bonanni of Wilmot Street. The Wisniewski boy won a 4th-place ribbon, playing "LaCampagnola."

Miss Rise won a first-place trophy, playing "Gleaming". Miss Eversole and Miss Drobot each teamed with the Bryan youth to play the Babeko Polka, each taking a 3rd-place ribbon in their respective duet competition. Each student also won a trophy playing the Velocity Waltz in the challenge cup division for their performances.

Day by Day

...in Western Wayne County

Area deaths

Orville E. Summers, 76, of Romulus, died April 1, Baum Funeral Home, Romulus.
Alfred C. Fyock, 69, of Rialto, Calif., formerly of Romulus, died April 3 in California.
Rosie O. (Olds) Scharp, 65, of Ypsilanti, died March 30, Roberts Bros. Funeral Home, Belleville.
Lawson Connard Nichols, 59, of Belleville, died April 4, Roberts Bros. Funeral Home, Belleville.

Area meetings

—The Romulus Jaycees will be sponsoring a benefit dance for the March of Dimes April 17 at the Progressive Hall, located at Ozga Road and Huron River Drive. The \$6 per couple donation will cover dancing, beer and set-ups. The dance will begin at 8 p.m. For further information, contact the Treasurer's Office of the Romulus City Hall, or Sandra Taylor at 941-5832.

Jaycees set for sale

Residents are being urged by the Romulus Jaycees to get ready for a jelly salesman visiting their home.

Jaycees and more than 40 Romulus High School student volunteers will be covering neighborhoods in the community soliciting sales of two types of jelly as part of the annual Jelly Week charitable fund-raising event in the community.

The honorary chairman of this year's event is Romulus Mayor James C. Stewart.

Andy Miller, a Jaycee, is handling the scheduling of the event.

To be offered as part of the 2-week charitable sale will be two types of jelly—apple-grape jelly and grape jam—at a cost of \$1 per jar.

Proceeds from the sale of the jelly will go to benefit the loyal Romulus Eager Beavers, a study-play group for handicapped youngsters, operated cooperatively by Geneva Clark of the Family and Neighborhoods Services and parents of the youngsters.

Residents purchasing the goods are assured of between 60 and 70 cents of

the \$1 they pay for the merchandise going to the charity.

Proceeds from this year's sale will help finance a summer camp for the Eager Beavers.

Persons who may not be approached at their home, but who still may want to purchase jelly can do so by calling Tom Von Glahn, a Jaycee, at 941-4320.

Cleaners to return

A Sumpter Township drain crew will be in action this spring.

Township Supervisor Elmer Parraghi has reported to the township Board of Trustees that six persons have been hired under the federal Comprehensive Employment and Training Act (CETA) job program to help with drain cleaning chores in the township this year.

The crew will help control water flow from Sumpter's most critical drainage areas.

Township officials plan to assign crews to make connections to the township's water and sewer system instead of contracting the work to private firms.

On cafeterias' menus

Chicken and sandwiches get top billing

Oven-fried chicken, Italian submarine sandwiches and spaghetti will only be a few of the main entrees to be

served in the Van Buren, Romulus and Lincoln Consolidated school districts next week.

On tap for youngsters in the Van Buren elementary schools will be juice, cheeseburgers on buns, french

fries, fruit, cookies and milk, followed by ground beef in gravy over mased potatoes, bread and butter, fruit, pudding and milk on Tuesday.

Next Wednesday the lineup will be soup, pizza, salad or cole slaw, or vegetable, fruit cobbler and milk, with soup, Italian submarine sandwiches, potato chips, fruit, cookies and milk slated for next Thursday.

There will be no school in any of the districts next Friday, the start of the Easter recess. In Van Buren the break will run through April 23, as in the Lincoln Consolidated School and Romulus School districts.

In the junior and senior high schools in the Van Buren School District, the menu Monday will be juice, pizza vurgers on buns, potato chips, fruit, icy bird and milk, with hot turkey sandwiches, mased potatoes with gravy, cranberry sauce, pie, fruit Jell-O and milk slated for Tuesday.

Next Wednesday the bill of fare will be juice, sloppy joes on buns, potato chips, fruit, cake and milk, while swiss steak with mashed potatoes and gravy, bread and butter, vegetable, fruit Jell-O, cake and milk are planned for next Thursday.

The alternate food items in the secondary schools will be the Belleville burger on Monday, double burgers with cheese on Tuesday, the Belleville burger next Wednesday and melted cheese and chioi on buns. The side dishes will be french fries or tator gems, dessert and milk.

In the Romulus Community Schools, the menu Monday will be fish squares, french fries, cabbage salad, bread and butter, fruit cup and milk, followed by John Marzetta, buttered green beans, bread and butter, pineapple cup and milk on Tuesday.

The lineup next Wednesday will be sloppy joes or hot dogs, golden corn, rolls and butter, pear cup and milk, with oven-fried chicken, mashed potatoes and gravy, buttered peas and carrots, bread and butter, cookies and milk slated for next Thursday.

In the Lincoln Consolidated School District the cafeterias will be serving vegetable beef soup, crackers, relishes, cinnamon rolls, fruit and milk, with spaghetti, vegetable, chilled fruit, hot rolls, cake and milk

planned for Tuesday.

Next Wednesday the bill of fare will be hot dogs on buns, potato chips, relishes, apple crisp and milk, followed by cook's choice next Thursday.

Top stickers

Taking honors in the annual Mt. Pleasant Elementary School floor hockey tournament in the fifth-grade division were Mark Nowacki (from left), Starr Dailey, Chris Hoty, team captain, Deanna Williams, Ann Gunn and Bobbie

Williams. The students were among the hundreds from the fourth to sixth grades who participated in the sporting event. — The Enterprise-Roman photo.

CUFA says

IRS may pay you \$400

Certain lower-income workers may be eligible to receive a special payment of up to \$400 from the federal government, but they have to file a 1975 federal income tax return to receive it.

Many of the people eligible for the payment, called the Earned Income Credit, may not be required to file a tax return ordinarily because their earnings are low.

To qualify for the credit, individuals must have less than \$8,000 in total income, including income from wages, salaries, tips or other employee compensation and self-employment income. Additionally, the workers must have maintained a home in the United States for the entire year for themselves and at least one dependent child who was under 19 years of age, or a fulltime student.

To find out if you are eligible, contact the Romulus office of Communities United For Action Inc. (CUFA) at 326-4220, or visit the office at 35351 Beverly Road. The number

for the Sumpter office is 587-2089 and the address is 28586 Sumpter Road.

People who qualify for the credit and who have earnings of \$4,000 or less receive a credit of 10 percent of their earned income only, up to a maximum of \$400. Individuals whose total income was between \$4,000 and \$8,000 also are entitled to the credit, based on earned income, but the amount decreases \$1 for every \$10 of income over \$4,000.

Taxpayers who filed a return last year will find additional information and instructions for claiming the credit in their tax packages. Persons who did not file last year can get the necessary forms and instructions, as well as the free Publication 596 — "Tax Benefit for Low-Income Individuals" — from IRS offices, or the nearest CUFA office.

He'll meet folks

A public meeting has been scheduled at the Airport Senior High School Cafetorium tomorrow to introduce residents of the Airport School District to their new school superintendent.

Dennis T. Adams, recently chosen superintendent of instruction at the district, will meet the public at 7:30 p.m.

Adams will be moving to the Airport Community Schools, which includes portions of Sumpter Township, from the Merrill Community School District in Michigan.

During his career in education, Adams was director of curriculum for the Kearsley Community Schools near Flint, consultant of federal programs for the Shiawasee Community Schools near Lansing and principal and superintendent of the Morris Community Schools.

Adams is the holder of a master of arts degree from Michigan State University and earned his bachelor of arts degree from Western Michigan University.

The father of four children, Adams is working toward his educational specialist degree.

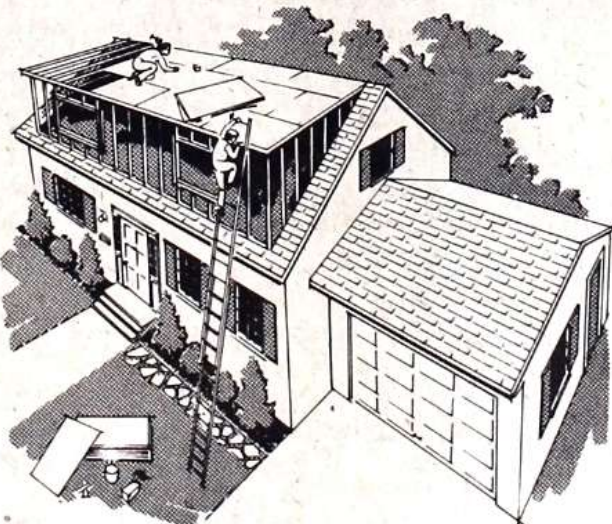

Adams and his wife live with their four children in Merrill.

Cigarette Flavor Decoded.

Scientists isolate tobacco ingredients most essential to taste — 'Enriched Flavor' packed into new low tar MERIT.

By "cracking" cigarette smoke down into separate ingredients, researchers at Philip Morris have discovered very special "key" flavor units that deliver taste way out of proportion to tar.

The discovery is called 'Enriched Flavor.'

The cigarette packed with 'Enriched Flavor' is MERIT. At 9 mg., one of the lowest tar levels in smoking today.

Yet MERIT actually packs the taste of cigarettes having more tar.

Up to 60% more tar.

If you smoke, you'll be interested.

Tests Verify Taste

Thousands of smokers were tested. The results were conclusive: Against five current leading low tar brands, 9 mg. MERIT was reported by a significant majority of smokers to deliver more taste.*

Repeat: deliver more taste.

In similar tests against 11 mg. to 15 mg. menthol brands, a significant majority of all smokers tested reported MERIT MENTHOL delivered as much — or more — taste.

MERIT and MERIT MENTHOL.

Both packed with 'Enriched Flavor.'

Both lower in tar than 98% of all cigarettes sold today.

Both turning in extraordinary flavor performances against higher tar competition.

You've been smoking "low tar, good taste" claims long enough.

Now smoke the cigarette.

MERIT.

*American Institute of Consumer Opinion. Study available free on request. Philip Morris Inc., Richmond, Va. 23261. © Philip Morris Inc. 1976.

MERIT and MERIT MENTHOL

9 mg. "tar," 0.7 mg. nicotine av. per cigarette by FTC Method.

Sunday 10 to 5
Food Stamps Accepted and Welcome

Prices effective through Monday, April 12, 1976

WE RESERVE THE RIGHT TO LIMIT QUANTITIES.

TOWNSHIP OF VAN BUREN

AMENDMENT TO WATER AND SEWER ORDINANCE

ORDINANCE NO. 3-23-76

AN ORDINANCE TO AMEND THE TITLE AND SECTIONS 5, 7, 9, 11, and 12 OF THE WATER AND SEWER ORDINANCE, BEING ORDINANCE NO. WS 10-12-65, AS AMENDED.

THE TOWNSHIP OF VAN BUREN ORDAINS:

Section 1. The Title of the Water and Sewer Ordinance, Ordinance No. WS 10-12-65, as amended, is hereby amended to read as follows:

AN ORDINANCE COMBINING ALL PUBLICLY OWNED AND OPERATED WATER SUPPLY AND SEWAGE DISPOSAL FACILITIES IN THE TOWNSHIP OF VAN BUREN INTO A SINGLY SYSTEM; PROVIDING FOR THE FIXING AND COLLECTION OF RATES AND CHARGES TO USERS AND BENEFICIARIES OF SAID SYSTEM; PROVIDING FOR THE ALLOCATION AND USE OF THE REVENUES DERIVED FROM THE COLLECTION OF RATES AND CHARGES; PROHIBITING UNAUTHORIZED CONNECTIONS TO SAID SYSTEM; AND PROVIDING PENALTIES FOR THE VIOLATION THEREOF; AND REPEALING EXISTING ORDINANCE.

Section 2. The following words are added as a new paragraph at the end of Section 1 of the Water and Sewer Ordinance, Ordinance No. WS 10-12-65, as amended:

DEPARTMENT: The term "Department" shall mean the Water and Sewer Department of the Township of Van Buren, Wayne County, Michigan. Section 3. Sections 5, 7, 9, 11, and 12 of the Water and Sewer Ordinance, Ordinance No. WS 10-12-65, as amended, are hereby amended to read as follows:

Section 5. Billing and Enforcement.

From and after the date of adoption of this Ordinance, as amended, the rates and charges for the service and benefits provided by the combined system shall be as prescribed by resolution of the Township Board. Whenever two or more units are served by a single water meter, the minimum quarterly water consumption and debt service rates, and the corresponding minimum portion of the sewer rate, for such units shall be computed by multiplying the minimum water and sewer consumption and debt service rate for a single unit by the total number of such units. "Unit" shall mean (1) a single-family residential dwelling, (2) an individual apartment, townhouse, or other similar enclosure intended for single-family residential occupancy, located in an apartment house, condominium unit or other similar multiple-dwelling building, (3) a mobile home, whether or not located in a mobile home park, and (4) any other structure or part thereof used or intended for single-family residential occupancy, provided, however, that individual rooms or units in a hotel, motel, or other structure intended for temporary occupancy shall not be deemed to be "units."

Bills for water and sewage disposal shall be billed quarterly on a single statement showing separately water rates and sewer rates; bills for premises using more than 20,000 gallons of water per quarter, or premises having special rates, may be billed monthly at proportionate rates if the Township Board so directs. All bills shall be payable on or before due date without discount.

Section 7. Establishment of Funds and Order of Priority of Deposits

7.1 All of the proceeds of the collection of all taxes levied in order to meet the Township's various obligations pursuant to contracts under which the parts of the System have been constructed shall be deposited into the Fund entitled "Contracts Payment Fund" which is hereby established for the purpose of making payments on said contracts.

7.2 All of the revenues from the System shall first be deposited into the "Receiving Fund" which is hereby established for that purpose, and shall be used and applied as set forth in paragraphs 7.3, 7.4, 7.5, and 7.6.

7.3 The moneys in the Receiving Fund shall first be set aside in each quarter of operations in a separate fund designated (and hereby established) as the "Operation Fund" in an amount sufficient to pay the estimated current expenses of administration and operation of the system including an amount allocated to general administration and a contingency reserve of ten percent (10 percent).

7.4 After the amounts provided for in paragraph 7.3 are set aside from the moneys remaining in the Receiving Fund, there shall next be set aside in each quarter of operations in a separate fund designated (and hereby established) as the "Reserve for Repair, Maintenance and Replacement" an amount equal to the total of the following:

(a) an amount equal to one quarter of the estimated expenses of repair and maintenance for the current year of operations of the System;

(b) an amount (for contingencies) equal to 2.5 percent of the actual expenses of repair and maintenance for the last year of operation of the System;

(c) an amount equal to one quarter of the annual depreciation of the System as determined in accordance with generally accepted accounting principals and using replacement costs, not acquisition costs as a basis;

(d) an amount (to provide for earlier years when no depreciation was provided for) equal to owe half of the amount provided for in (c) hereof, provided that this amount shall not be set aside in any quarter after 1980.

7.5 After the amounts provided for in 7.3 and 7.4 are set aside, from the moneys remaining in the Receiving Fund, there shall next be set aside in each quarter of operations in a separate fund designated as "Contract Payment Reserve" an amount equal to one quarter of the total contract payments due in the next year, until such fund is equal to the next full year's contract payments. The moneys in the Contract Payment Reserve shall be used to make up shortages in the Contracts Payments Fund when such shortages shall exist.

7.6 The balance of such funds in the Receiving Fund shall be deposited into the Contracts Fund.

7.7 The various funds established by this Section may be co-mingled or placed in one or more depository accounts, as the Township Board shall provide by Resolution, provided that the Treasurer of the Township shall maintain separate records for each such Fund.

7.8 Moneys on hand in the Reserve for Repair, Maintenance and Replacement and the Contract Payment Reserve may be transferred to an "Emergency Construction Fund" upon order of the Township Supervisor whenever circumstances develop in the system requiring expenditure of funds on the system, provided that any moneys deposited in the Contract Payment Reserve pursuant to Section 9(b) may not be so transferred.

Section 9. Moneys or securities on hand as of the date of adoption of this Ordinance in the System funds established by the provisions of Township Ordinance No. W.W. 10-12-65, as amended, are hereby ordered transferred as follows:

(a) All moneys or securities on hand in the Operation and Maintenance Fund provided for in Section 7(A) of the Ordinance No. W.W. 10-12-65, as amended, are hereby ordered transferred into the Operation Fund.

(b) All moneys or securities on hand in the Contracts Payment Fund provided for in Section 7(B) of the Ordinance No. W.W. 10-12-65 are hereby ordered transferred as follows:

(1) An amount equal to the payments due to be made on contracts pursuant to which part of the System was constructed shall be transferred into the Contracts Payment Fund;

(2) The balance shall be deposited into the Contracts Payment Reserve. Bills not paid on or before the last new payment date as indicated on the face of the bill shall be subject to a 10 percent penalty charge. Charges for water and sewage disposal services shall constitute a lien on the property served, and, in addition, shall be a personal obligation of the customer. On August 1st of each year or as soon as possible thereafter, the Township Clerk shall deliver to the Supervisor a certified statement of all water and sewage disposal charges 60 days past due and unpaid as of the previous July 15th, plus a 10 percent penalty charge in addition to the 10 percent penalty charge provided above. The Supervisor shall place such charges on the next general tax roll and the same shall be collected as part of the general Township taxes, and, in addition, may be collected in an action against the customer upon the personal obligation as set forth above. In addition, the Township shall have the right to order the termination of all water service to premises upon which charges for water and sewage disposal services (including penalties, if any) are unpaid for more than 60 days.

Section 11. Extensions and Connections.

Section 11.1. Extension of System.

11.1(a) Extension of or changes in Sewer Trunks or Laterals may be initiated by the Board by petition of property owners. Petitions for the construction of new Sewer Trunks or Laterals shall be addressed to the Board upon blank forms provided for that purpose and shall be sent to the Water and Sewer Commission for recommendation prior to consideration by the Board. The Board may refuse to grant, or may grant the same, and may prescribe the terms and conditions upon which the petition will be granted and may require the written acceptance of such terms and conditions by the petitioners. If the petition is granted, the Board will proceed as promptly as practical with the proposed work under the terms and conditions named. The said work will be done at the expense of the petitioners unless otherwise stipulated, and any and all extensions shall be subject to the provisions of this Ordinance.

11.1(b) The Sewer Trunks and Laterals of said system are under the exclusive control of the Township Board, and all persons other than agents and employees of the Board, are forbidden to disturb, tap, change, obstruct access to, or interfere with them in any way.

11.1(c) Any persons, firms or corporations wishing to have the Township

install mains shall first submit preliminary plans and specifications, prepared by a Civil Engineer, for such work, to the Board for approval, at which time, the Board shall determine the conditions for such installation.

Section 11.2. Sewer Service Pipes and Supply Pipe Connections.

11.2(a) Before any connection shall be made to any Sewer Lateral, application for same shall be made in writing to the Department by the owner of the premises to be served or by his or her authorized agent, and a Connection Permit secured. Such applications shall be made on forms provided by the Department. The owner, user, and/or applicant for a Connection Permit by such application agrees to abide by this Ordinance and all rules and regulations of the Department.

11.2(b) Only persons authorized by the Township shall uncover and make any connections with or openings into, use, alter, or disturb any public sewer or appurtenance thereof and then only after first obtaining a written permit from the Department.

11.2(c) There shall be two (i) classes of sewer permits: (a) for residential and commercial service, and (ii) for service to establishments producing industrial wastes. In either case, the owner or his agent shall make application on a special form furnished by the Township. The permit application shall be supplemented by any plans, specifications, or other information considered pertinent by the Department. Permit and inspection fees shall be paid to the Township at the time application is filed, and shall be in such amounts as provided herein in the schedule of charges. All Sewer Service Pipes must be laid with a minimum of forty-two (42) inches of cover, and must be inspected as follows:

(i) First Inspection: The Inspector must be on the job before the riser is exposed.

(ii) Second Inspection: The inspector must inspect both ends of the pipe and the depth before backfill. Said inspections shall be made upon request during business hours with 24 hours notice.

11.2(d) All costs and expense incident to the installation and connection of Sewer Service Pipes shall be borne by the owner. The owner shall indemnify the Township against any loss or damage that may directly or indirectly result from the installation of any Sewer Service Pipe.

11.2(e) A separate and independent Sewer Service Pipe shall be provided for each dwelling, except that, where one auxiliary building stands at the rear courtyard or driveway, the Sewer Service Pipe from the front building may be extended to the rear building and the whole considered as one building Sewer Service Pipe.

11.2(f) Old Sewer Service Pipes may be used in connection with new buildings only when, on examination and test by the Department, they are found to meet all requirements of this Ordinance.

11.2(g) The Sewer Service Pipes shall be cast iron, or equal if approved by the Engineer, soil pipe ASTM A74, vitrified clay sewer pipe ASTM C-200, or PVC pipe as provided in the Township Plumbing Code, except that in filled or unstable ground the pipe shall be extra heavy cast iron.

11.2(h) The size of the Sewer Service Pipes shall not be less than six inches (6") unless cast iron, or PVC pipe as provided in the Township Plumbing Code, is used in which case four inch (4") may be used. The slope shall not be less than one-eighth inch (1/8") per lineal foot.

11.2(i) Whenever possible, the Sewer Service Pipes shall be brought to the building at an elevation below the basement floor. No Sewer Service Pipes shall be laid parallel to and within three (3) feet of any bearing wall, which might thereby be weakened. The depth shall be sufficient to afford protection from frost, but in no event shall the depth be less than 42 inches for new installation. The Sewer Service Pipes shall be laid at uniform grade and in straight insofar as possible. Changes in direction shall be made only with properly curved pipe or long-radius fittings. Each bend of 45 degrees or over shall have a cleanout.

11.2(j) In all buildings in which any drain is too low to permit gravity flow to the Sewer Service Pipes, sanitary sewage carried by such drain shall be lifted by means approved by the Department and discharged to the Sewer Service Pipe.

11.2(k) All excavations which are made for the installation of sewers shall be done in complete conformance with the requirements and standards of Township Ordinances and other applicable rules and regulations. Pipe laying and backfill shall be performed in accordance with the applicable provisions of ASTM designated C-12, except that no backfill shall be placed until the work has been inspected and approved by the Township.

11.2(l) All joints shall be tight. Joints for cast iron pipe shall be made with oakum or hemp and filled not less than one inch (1") deep with lead meeting Federal Specifications (QQ-L-156), or they shall be sealed with a neoprene gasket of a type approved by the Township. Paint, varnish and putty shall not be permitted on the jointing material until after testing. Joints for clay and cement asbestos shall be resilient compression joints.

11.2(m) All building sewers shall be tested by infiltration if so determined by the Department. The test shall be made with a minimum head of seven (7) feet. The infiltration rate shall not exceed two hundred (200) gallons per inch of pipe diameter per mile of pipe per day. The test will be made by the installer in the presence of the Department. Certification of the test shall be a requirement for approval of the installation.

11.2(n) The applicant for the connection permit shall notify the Department when the building sewer is ready for inspection and connection to the public sewer. The connection shall be made under the supervision of the Department.

11.2(o) The floor level of all new structures from which sanitary sewage or industrial wastes emanate shall be at such a level that said sewage and wastes can flow by gravity to any sanitary sewer in the adjoining street constructed with an invert 8 feet below the centerline of the street, except where such wastes shall be lifted as provided in Section 11.2(j), or where special approval has been obtained from the Department because of topographical conditions. An acceptable sewage outlet facing the street where a sanitary sewer is available, or is proposed to be made available, shall be provided in all new structures.

Section 11.3. House Service Connections.

11.3(a) House Service Connections shall consist of one of the following:

(i) Type 1: Wye branches installed in the main sewer at the time of construction. Connections to existing wye branches shall be made with an approved type of joint material or an approved compression coupling. The connection shall be completely watertight. No connection shall be allowed to any damaged wye. If damage occurs during the making of the connection, the wye shall be taken out of the main sewer, and replaced either by another undamaged wye or by straight pipe. If straight pipe is used in the replacement, other approved connection methods shall be used. Concrete encasement of the wye, connection joint, or any other part of the connection shall not be deemed water-tight and shall not be allowed as a method of repairing a damaged joint.

(ii) Type 2: Connections of the saddle type installed in the main sewer. Connections of this type shall be made in a smooth, round hole, machine-drilled into the main sewer pipe or as otherwise approved by the Department. The fitting used in the connection shall be of such a design as to insure that no part of the fitting shall protrude into the main sewer pipe. The connector shall fit perfectly the contour of the inside of the sanitary sewer and shall be specifically designed to fit the particular size main sewer pipe into which the connection is made. The hole shall be of such size as to provide one-eighth inch (1/8") clearance between the outside of the fitting and the hole. The space thus provided shall be completely filled with joint material. The space between the shoulder of the fitting and the face of the main sewer pipe shall be one-eighth inch (1/8") thick and this space shall also be completely filled with joint material. Joint material used for Type 2 house service connections shall be completely waterproof and shall be capable of withstanding any condition of stress or strain likely to be encountered in normal sanitary sewer construction or maintenance. Concrete encasement will not be considered waterproof. The fitting for Type 2 house service connection shall be manufactured of cast iron and shall be capable of receiving ASTM cast iron pipe. The Type 2 fitting and drilling machine herein described shall be of a type approved by the Engineer.

11.3(b) Type 1 connections may be used in existing sanitary sewers when wye branches previously installed are readily and conveniently available. If existing wye branches cannot be found readily or are not located properly for providing the needed service, Type 2 connections shall be used.

11.3(c) When new sanitary sewers are constructed, Type 1 connections may be made in cases where the connections to the lot line is made during construction and before backfilling of the sanitary main sewer trench. Type 2 connections shall be made in all cases where house services are installed subsequent to construction and backfilling.

Section 11.4. Extension of Water System.

11.4(a) Extension of or changes in water mains may be initiated by the Board or by petition from property owners. Petitions for the construction of new mains shall be addressed to the Board upon blank forms provided for that purpose and shall be sent to the Water and Sewer Commission for recommendation prior to consideration by the Board. The Board may refuse to grant, or may grant the same, and may prescribe the terms and conditions upon which the petition will be granted and may require the written acceptance of such terms and conditions by the petitioners. If the petition be granted, the Board will proceed as promptly as practical with the proposed

work under the terms and conditions named. The said work will be done at the expense of the property owners unless otherwise stipulated, and any and all extensions shall be subject to the provisions of this ordinance.

11.4(b) The water mains of said system are under the exclusive control of the Board, and all persons other than agents and employees of the Board, are forbidden to disturb, tap, change, obstruct access to, or interfere with them in any way.

11.4(c) Any persons, firms or corporations wishing to have mains installed shall first submit preliminary plans and specifications, prepared by a Registered Engineer, for such work, to the Board for approval, at which time, the Board shall determine the conditions for such installation.

Section 11.5. Water Service Lead and Water Service Pipe Connections.

11.5(a) Before any connection shall be made to any Water Main, application for same shall be made in writing to the Department by the owner of the premises to be served, or by his or her authorized agent, and a connection permit secured. Such applications shall be made on forms provided by the Department. The owner, user, and/or applicant for a connection permit by such application impliedly agrees to abide by this ordinance and all rules and regulations of the Department in all respects.

11.5(b) All service pipes shall be of Type "K" copper or PVC pipe as provided in the Township Plumbing Code of size and quality as approved by the Department. All fittings and connections, underground, shall be approved by the Department.

11.5(c) Water shall be taken and used only through Water Service Pipes under the supervision of the Department and no connection through which water may pass from one property or premises to another shall be permitted even though the ownership of both properties or premises may be the same.

11.5(d) Excessive or unnecessary use or waste of water, whether caused by carelessness or by defective or leaky plumbing or fixtures, is strictly prohibited. For disregard of, or repeated violation of this requirement, the water may be turned off by the Department.

11.5(e) Water Service Pipes shall be the responsibility of persons authorized by the Township, and all the fixtures and attachments put in on the premises in connection therewith, must conform to the character, design and quality of the laws of the State of Michigan and the BOCA Code as adopted by the Van Buren Township Board by Ordinance No. 5-13-75, as may be amended from time to time.

11.5(f) All Water Service Pipes must be laid with a minimum of five (5) feet of cover.

11.5(g) All Water Service Pipes must be inspected after installation but prior to backfilling. Inspections will be made upon request during business hours with 24 hours notice.

11.5(h) No new connection will be made until written approval by the inspector is given to the Department.

11.5(i) Water meters must be provided for each new dwelling unit and shall be located in a frost free room and may not be located in a crawl space, provided that upon payment of the Pit Inspection Fee and receipt of written approval of the Department, meters may be installed in frost free pits which meet requirements set forth by the Department. Final approval will be given only after inspection of the completed installation.

11.5(j) A separate gate valve the same size as the meter connections shall be placed on the Water Service Pipe on both sides of the meter. Such valves shall be equal in quality to the service cock.

11.5(k) No Water Lead of less than three-fourths inch diameter will be permitted.

11.5(l) Applicants for unmetered water usage during construction periods shall pay a flat rate for water usage as determined by the Department. Said fee for construction water shall entitle the applicant to water for construction purposes for a period of not more than two months. Where water is provided, without a meter, for construction of a building, any wasting of water, whether caused by carelessness or by defective fixtures is strictly prohibited. For violation of this requirement, the water shall be turned off by the Department, and additional charges shall be levied by the Department as appear necessary based on water usage.

11.5(m) No Water Service Lead shall be installed when the Water Service Pipe is in line with a driveway, tree, fire hydrant, catch basin or other obstruction. Before installing such lead, the location must be approved by the Department.

11.5(n) All Water Leads from the Water Main to the lot line shall be put in only by the Department or contractors approved by the Department.

11.5(o) The Water Service Pipe from the property line to the premises shall be considered private plumbing and be maintained by the owner of the premises. Failure to keep Water Service Pipes in good repair will result in discontinuance of service.

11.5(p) No person shall interfere in any way with the Water Service Lead. No person is permitted to turn water on or off at the curb cock except for the purpose of testing his work, in which case the curb cock shall be left in the same condition and position as he found it.

11.5(q) All Township water used on any premises where a meter is installed must pass through the meter.

Section 12. Use of System.

Section 12.1. Use of Public Sewers.

12.1(a) No person shall discharge, or cause to be discharged, any storm water, surface water, ground water, roof runoff, or subsurface drainage, to any sanitary sewer. No footing drains shall be connected to sanitary sewers. All footing drain water shall be discharged to storm sewers or dry wells.

12.1(b) Storm water and all other unpolluted drainage shall be discharged to a natural outlet approved by the Department, the Michigan Department of Natural Resources, and/or other interested governmental agencies, where available.

12.1(c) No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

(i) Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid or gas.

(ii) Any waters or wastes containing toxic or poisonous solids, liquids, or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant, including but not limited to cyanides in excess of one (1) mg-1 as CN in the wastes as discharged to the public sewer.

(iii) Any waters of wastes having a pH lower than 5.5 or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.

(iv) Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.

12.1(d) No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Department that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream, or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming an opinion as to the acceptability of these wastes, the Department will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances prohibited are:

(i) Any liquid or vapor having a temperature higher than one hundred fifty (150) degrees F. (65 degrees C).

(ii) Any water or waste containing fats, wax, grease, or oils, whether emulsified or not, in excess of one hundred (100) mg-1 or containing substances which may solidify or become viscous at temperatures between thirty-two (32) and one hundred fifty (150) degrees Fahrenheit (0 degrees to 65 degrees C).

(iii) Any garbage that has not been properly shredded. The installation and operation of any garbage grinder equipped with a motor of three-fourths (3/4) horsepower or greater shall be subject to the review and approval of the Department.

(iv) Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solutions whether neutralized or not.

(v) Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Department for such materials.

(vi) Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits which may be established by the Department as necessary, after treatment of the composite sewage, to meet the requirements of the State, Federal, or other public agencies of jurisdiction for such discharges to the receiving waters.

(Cont. on Page A-19)

Small animals have own day

Young at heart of all ages are being invited to attend Michigan State University's (MSU) Small Animal Day May 1.

There will be free tours of dairy, sheep, poultry, horse, swine and beef facilities on campus from 9 a.m. to 2 p.m.

Visitors will see baby chicks, ducklings, calves, colts, piglets and young mink, called kits. With supervision, children may hold and pet some of these animals. The event has been sponsored annually by the MSU College of Agriculture and Natural Resources Student Senate since 1957. The event is student-planned and directed.

"Anyone who might be interested, from preschoolers to senior citizens, is welcome to

join the tours. We would like senior citizens to arrive as early as possible so they can take their time enjoying the animals," said Laura Mang, project coordinator. "The tour

glimpses American agriculture at its grass roots. It shows part of the yearly renewal of life found each year throughout livestock agriculture." "It also is a joy to see

the expression on the face of a blind youngster when he holds a fuzzy, new-born chick to his cheek the first time. It's these experiences that perpetuate Small Animal Day."

It is a good opportunity for all visitors to see how animals are raised and cared for and to see how a farm operates.

MSU buses will take

visitors from the campus commuter parking lot at Mt. Hope and Farm Lane to the farm facilities. No private vehicles will be permitted at the farms during the day.

**VAN BUREN TOWNSHIP
DOG LICENSES**
1976 DOG LICENSES WILL GO ON SALE
APRIL 1, 1976
All dogs over 4 months old must be licensed by June 15, 1976.
LICENSE FEE SCHEDULE:
All Dogs, Male, Female or Unsexed - \$3.00
A penalty of \$7.00 will be charged on all licenses purchased after June 15, 1976 unless that dog was too young to be vaccinated and/or licensed before that date.
Licenses will be sold between 8:00 A.M. and 5:00 P.M. Monday thru Friday, at the Van Buren Township Treasurers Office, 46425 Tyler Rd., Belleville. All license applications must be accompanied by proof of current rabies vaccination.

TOWNSHIP OF VAN BUREN AMENDMENT TO WATER AND SEWER ORDINANCE ORDINANCE NO. 3-23-76

(Cont. from Page A-18)

(vii) Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Department in compliance with applicable State or Federal regulations.

(viii) Any waters or wastes having a pH in excess of 9.5.

(ix) Materials which exert or cause:

1. Unusual concentrations of inert suspended solids such as, but not limited to, Fullers earth, lime slurries, and lime residues, or of dissolved solids such as, but not limited to, sodium chloride and sodium sulfate.

2. Excessive discoloration such as, but not limited to, dye wastes and vegetable tanning solutions.

3. Unusual BOD, chemical oxygen demand, or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.

4. Unusual volume of flow or concentration of wastes constituting "slugs" as defined herein.

(x) Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

12.1(e) Any person, firm or corporation whose operations entail the discharge of wastes containing toxic, poisonous or objectionable substances shall file with the Department, a written statement setting forth the nature of the operation contemplated or currently being carried on, the amount of water required to be used and its source, the proposed point of discharge of said waste into the sewage system, the maximum amount to be discharged per second, and a fair statement setting forth the expected bacterial, physical, chemical or other known characteristics of the wastes. Within thirty (30) days of receipt of said statement, the Department shall make an Order of Determination setting forth the maximum limits, if any, for such wastes.

12.1(f) Any Order of Determination issued by the Department may be reviewed annually, and the maximums set forth therein adjusted to compensate for increased flows in the entire sewer system, or increased contribution of toxic, poisonous or objectionable substances by other users of the sewer system. It shall be the duty of the Department to apportion to each industry its fair shares of toxic waste discharge in such manner that the combined waste of all users will not endanger the sewage system or treatment processes.

12.1(g) Any Order of Determination issued in pursuance of this Ordinance shall be considered a part of this Ordinance for the specific industrial user or other establishment involved, and shall be enforceable in the same manner as this Ordinance.

12.1(h) The Department may discontinue sewer service to an industrial user violating the terms of an Order of Determination until such time as the industry shall conform to the provisions of said Order of Determination.

12.1(i) Where the wastes from an industrial user exceed the limits set forth in the Department Order of Determination, said user may be required, as a condition precedent to its continued right to use the public sewer, to construct necessary pretreatment facilities to keep wastes discharged to the public sewers within the ordered limits.

12.1(j) Grease, oil and sand interceptors shall be provided as follows:

(i) Grease, oil and sand interceptors shall be provided when, in the opinion of the Department, they are necessary for the proper handling of liquid wastes containing grease in excessive amounts, or any flammable wastes, sand and other harmful ingredients; except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of a type and capacity approved by the Department and shall be located so as to be readily accessible for cleaning and inspection.

(ii) Grease and oil interceptors shall be constructed of impervious materials capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, water-tight, and equipped with easily removable covers which, when bolted in place, shall be gas-tight and water-tight.

(iii) Where installed, all grease, oil and sand interceptors shall be maintained by the owner, at his expense, in continuously efficient operation at all times.

12.1(k) Where preliminary treatment facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense. Plans, specifications and any other pertinent information relating to proposed preliminary treatment facilities, or additions to, or expansion of existing treatment facilities, shall be submitted for the approval of the Department, and of any other interested regulatory agency. No construction of such facilities shall be commenced until such approval is obtained in writing.

12.1(l) When required by the Department the owner of any property served by a sewer carrying industrial wastes shall install a suitable control manhole in the sewer to facilitate observation, sampling and measurement of the wastes. Such manhole, when required, shall be located in a safe and accessible position and shall be constructed in accordance with plans approved by the Department. The manhole shall be installed by the owner at his expense and shall be maintained by him so it is in a safe and accessible position at all times.

12.1(m) If a municipal water supply is available, all sewer customers shall either have approved meters on all water intakes which are the source of wastes ultimately discharged to the sanitary sewer system, or shall meter the liquid wastes in a manner acceptable to governing body and the Department.

Section 12.2. Use of Water.

12.2(a) No person shall take or use water from premises not owned or possessed by him.

12.2(b) Where a building, originally built as a single building or premises and fitted with one Water Service Pipe, but capable of being divided by sale or otherwise, has been or may be hereafter subdivided and each subdivision shall be separately owned, the separate division or divisions so made must be connected to the main by separate service pipes within thirty (30) days after such division.

12.2(c) Where the water has been turned off by the authorized agent of the Board for any reason, only such an Authorized Agent shall turn it on again. When this rule is violated the water may be turned off at the curb cock, in which case the owner or occupant shall, before it is again turned on, pay in advance the charges made by the Board for turning the water off and turning it on again.

12.2(d) No person or persons shall obstruct or interfere in any way with any curb cock, valve or fixture connected with the System by placing or permitting any building materials, rubbish, soil, shrubbery, flowers or other materials as hindrances to easy and free access thereto.

12.2(e) All cross connections, between any type of water supply and municipal water supply are strictly prohibited. In the event a cross connection is discovered the water will be turned off at the curb cock until the cross connection is severed. No direct connection of any type to a sewer or any body of water shall be allowed.

Section 12.3. Fire Hydrants.

12.3(a) Fire hydrants are provided for the use of the Department and the Fire Department of the Township or by such persons as may be specially authorized by the Department.

12.3(b) The Department must approve the type, size of openings, and types of nozzle thread on all hydrants installed on private property serviced by Township water.

12.3(c) No person, firm or corporation shall in any manner obstruct or prevent free access to, or place or store temporarily or otherwise any object, material, snow, debris, automobile, or structure of any kind within a distance of twenty (20) feet of any hydrant. Any such obstruction when discovered may be removed at once by the Board at the expense of the person, firm or corporation responsible for the obstruction.

12.3(d) Where pipes are provided for fire protection in any premises or where hose connections for fire apparatus are provided on any pipe, each connection or opening on said pipes shall have not less than twenty-five feet of firehose constantly attached thereto, and no water shall be taken or used through such openings or hose for any purpose other than for extinguishing fires, except for the purpose of testing said fire equipment. In such case the test must be conducted under a special permit and under the supervision of the Department.

Section 12.4. Water Meters.

12.4(a) All water service connections, except separate fire connections, shall be metered and the owner of the premises served shall pay for water at the rate established by the Township Board. Each premises, including condominium units, under separate ownership or designed for separate ownership shall have a separate meter. Buildings under one ownership used for multiple occupancy may have a master meter, upon approval of the Department. In no case will water be supplied, except for temporary use with Department approval, at other than the established water rate.

12.4(b) Each premises, including each dwelling unit whether under one ownership or separate ownerships, shall pay a monthly service charge as set forth in the Schedule of Charges. The water meter shall remain the property of the Department and will at all times remain under its control. The meter couplings or flanges will be furnished by the Department. The maintenance of the meter will be the obligation of the Department, provided, that where replacements, repairs or adjustments of the meter are made necessary by the act, neglect or carelessness of the owner or occupant of any premises, the expense to the Department caused thereby may be charged against and collected from the owner or occupant of the premises.

12.4(c) All meters shall be horizontal in dry, clean, sanitary places, perfectly accessible, no less than 12" from floor level or more than 24" from floor level, with a minimum of 6" from any wall, 12" from top (for reading purposes) to an immovable object, with a gate valve on both sides of the meter, and where a small leak or the spilling of water will do no damage.

12.4(d) By-passes are required on all 1 1/2" and larger meter installations. By-passes will not be allowed on 1" meters or smaller.

12.4(e) All services 1 1/2" or larger must have a tee between the meter and outlet valve, to be used for testing the water meter without its removal. The size of the side opening of this tee shall be 1 1/2" for 1 1/2" service pipes, 2" for all service pipes up to and including 4", 3" for all larger service pipes. The side opening of such tee shall be plugged and sealed.

12.4(f) The owner of any premises where a meter is installed shall be held responsible for its care and protection from freezing or damage by hot water and from injury or interference by any person or persons.

12.4(g) If a meter fails to function or to register, the premises will be charged at the average quarterly consumption, as shown by the meter when in order. The accuracy of any meter installed in any premises will be tested by the Department upon request of the customer, who shall pay in advance a fee to cover the cost of the test, as set forth in the Schedule of Charges. If, on such test, the meter shall be found to register over ten per cent more water than actually passes through it, the test fee will be refunded to the customer and the water bill may be adjusted as hereinafter provided.

12.4(h) All persons are forbidden to interfere with or move a water meter from any service connection without first receiving permission from the Department. No person shall remove or break any seal on meters or by-pass valves.

Section 12.5. Violations and Penalties.

12.5(a) No connection shall be made or permitted to be made to any water mains, sewer lines or fire hydrants of the Combined System without obtaining a permit therefor. Application for such permit shall be made and filed with the Department, and the issuance of the permit approved by the Department. Any person, firm or corporation violating the provisions of this Ordinance shall be guilty of a misdemeanor and upon conviction thereof shall be fined in an amount not exceeding One Hundred Dollars (\$100.00) for each violation. Each day in which any such violation shall continue shall be deemed a separate offense.

12.5(b) Uses of land, dwellings, buildings, structures, tents, trailer coaches, or mobile homes, including any water or sewage disposal facilities therein, in violation of any provision of this Ordinance, are hereby declared to be a nuisance per se. The court shall order such nuisance abated and the owner and/or agent in charge of such land, dwelling, building, structure, tent, trailer coach or mobile home shall be adjudged guilty of maintaining a nuisance per se.

12.5(c) Any person causing any obstruction of service or other damage of any kind to the water or sewer system or any component thereof shall, in addition to any other penalties prescribed in this Ordinance, be liable to the Township for the amount of such damage, together with all administrative, legal, collection and all other fees and costs incurred by the Township regarding such damage.

Section 4. All ordinances or parts of ordinances in conflict herewith are hereby repealed only to the extent necessary to give this Ordinance full force and effect.

Section 5. It is hereby declared that this Ordinance shall be effective 30 days after publication thereof.

ADOPTED BY TOWNSHIP BOARD OF VAN BUREN TOWNSHIP ON March 23, 1976.

Patricia Cullin
Van Buren Township Clerk

PUBLISHED: April 7, 1976.

CITY OF ROMULUS COUNCIL MINUTES

MINUTES OF THE SPECIAL MEETING OF THE ROMULUS CITY COUNCIL HELD MARCH 23, 1976.

The meeting was called to order at 9:10 by Mayor Pro Tem Canejo. Attendance showing: Present at Roll Call: Raspberry, Oakley, Martin, McAnally, Lee, Block, Canejo. Absent at Roll Call: None. Excused at Roll Call: None.

Administrative Officials in Attendance: James C. Stewart, Mayor; Leonard J. Folmar, Clerk. Department Staff in Attendance: Dennis Meagher, Planning Consultant Mary Carter, Urban Renewal Director.

1. Motion by Oakley, supported by Martin, that the Agenda be accepted as amended. (addition of Item No. 4 (Retention of Grants Administrator):

AGENDA

Roll Call

1. Agenda
2. CDA Public Hearing Date
3. Discussion of Veto of Resolution No. 76-256, regarding authorization to file Consent Judgement for zoning initiated by Seligman Development, Inc.
4. Appointment of Grants Administrator
5. Adjournment
Roll call vote showing: Ayes - Lee, Block, Raspberry, Oakley, Martin, McAnally, Canejo. Nays - None. Motion carried unanimously.

2. Motion by Raspberry, supported by Martin, that a public hearing for CDA Grant funds be held on Monday, April 5, 1976 in the Romulus City Council Chambers at 8:00 p.m. Advertising for same to be via Romulus Public School System, the Detroit News, Romulus Roman and any other methods of communication deemed necessary by the City Clerk. Roll call vote showing: Ayes - Lee, Block, Raspberry, Martin, Canejo. Nays - Oakley, McAnally. Motion carried.

76-268

3. Motion by Martin, supported by McAnally, that City Council override veto, by Mayor, of Resolution 76-256 (authorization to file Consent Judgement for zoning by Seligman Development, Inc.). Roll call vote showing: Ayes - Raspberry, Oakley, Martin, McAnally, Lee, Canejo. Nays - Block. Motion carried.

76-269

4. Motion by Martin, supported by Oakley, that the Mayor be directed to hire Grants Administrator and further, that authorization be given to amend 1975 CDA Grant Budget to provide funds for payment of said Administrator.

76-270

Motion by Oakley, supported by Lee, that Resolution 76-269 be amended to provide that recommendation be provided, by the Mayor, to City Council of candidates for Grants Administrator position, qualifications and proposed salary. Roll call vote showing: Ayes - Block, Lee, McAnally, Martin, Oakley, Raspberry, Canejo. Nays - None. Motion carried unanimously.

Roll call vote on Resolution 76-269 as amended:
"Motion by Martin, supported by Oakley, that the Mayor be directed to hire Grants Administrator, and further, that authorization be given to amend 1975 CDA Grant Budget to provide funds for payment of said Administrator. Further, that recommendation be provided, by the Mayor, to City Council of candidates for Grants Administrator position, qualifications and proposed salary.

Ayes - Martin, Oakley, Raspberry, Lee, McAnally, Block, Canejo. Nays - None. Motion carried unanimously.

5. Motion by Raspberry, supported by Martin, that the meeting be adjourned. Roll call vote showing: Ayes - McAnally, Lee, Block, Raspberry, Oakley, Martin, Canejo. Nays - None. Motion carried unanimously.

Respectfully submitted,
Leonard J. Folmar, Clerk
City of Romulus

VAN BUREN TOWNSHIP BOARD MINUTES

SPECIAL BOARD MEETING, MARCH 30, 1976.

Meeting opened with the Pledge of Allegiance to the Flag. Supervisor Gollwitzer called the meeting to order at 7:30 P.M. Members present were Supervisor Gollwitzer, Clerk Cullin and Trustees Domen, Kureth and Maton. Absent were Treasurer York and Trustee Kelly. Also present were Engineers Levine, Wilhelm and Kelly, and Sec'y. Soja.

Motion Kureth, support Maton, to adopt, as presented, the resolution accepting Super Sewer Plan I as the most acceptable and feasible plan submitted to receive Federal & State Grants. Carried unanimously.

Clerk Cullin questioned the percentages of interest and dates in Resolution No. 2 for Sewer Special Assessment Districts 1 & 2 stating that it should be the same as for past sewer special assessments. Motion Cullin, support Domen, to amend in paragraph 4 of Resolution No. 2 for sewer S.A.D. No. 1 the percentage from 8 percent to 6 percent and adopt the resolution. CARRIED unanimously on roll call vote.

Motion Cullin, support Domen to base penalties in Resolution No. 2 for sewer S.A.D. No. 1 and 2 on the same penalties we use on ad valorem taxes as under state statute. CARRIED unanimously.

Motion Maton, support Domen, to amend in paragraph 4 of Resolution No. 2 for Sewer S.A.D. No. 2 the percentage from 8 percent to 6 percent and adopt the amended resolution. Roll call vote CARRIED unanimously.

Motion Domen, support Cullin, to adjourn.

Meeting adjourned at 7:52 P.M.

Respectfully submitted,
PATRICIA CULLIN, Clerk
Van Buren Township

Superwalk supporters

More than forty individual schools from the Metropolitan Detroit area participated in the Teen Kickoff for the March of Dimes Superwalk '76, held recently at the Community Arts Building on the State Fair Grounds. In preparation for the April 25 Superwalk, the largest walking event in the country, the young people attending watched films showing March of Dimes accomplishments and previewed the 1975 Superwalk film. Among speakers at the event were Detroit Lion Jim Thrower, who spoke about the importance of the students' participation, and Maxwell Gurman, executive director of the March of Dimes, Judy Blanchard, youth coordinator, and her assistant, John Douville, of the Metropolitan Detroit Chapter, who encouraged the students to return to their schools and enthusiastically rally support for Superwalk '76. Participating in the Teen Kickoff from St. Aloysius School of Romulus were Dan Sanchez (from left, standing), Diane Hackett, Joe Saval, Mary Beth Eaton, Wanda Sanchez, advisor, Vernor's Gnome Ron Bialecki (from left, front), China Jones of WDRQ.

Cubs display own hobbies

Others receiving denner cords were Tom Caretto and Patrick Vallely. David Kovacs and Jeffery Johnson received assistant denner cords. Ron Kovacs and Matt Percy earned the Arrow of Light award, the highest honor in Cub Scouting and the only award which can be carried into the Boy Scouts.

Other Webelos receiving awards include Jerry Szweda, traveler; Chris Pruett, aquanaut, naturalist, outdoorsman and traveler; Chris Schraeder, artist and outdoorsman; and Mike Metevia, denner award and aquanaut.

Dorothy Gibbs and a parent who helps with the Pack, received a 2-year service pin and Sandy Mabelitini, another volunteer, received a 1-year service pin.

On the Friday following the Pack meeting, the scouts, and their parents drove to Olympia Stadium to watch

the resurgent Detroit Red Wings play hockey.

Some 49 Cubs attending the outing, described as the one event the Cubs enjoy most each year.

Scouts from Cub Pack 739 of the Merriman Elementary School in Romulus held Hobby Night at their regular pack meeting March 23.

The Cubs attending the meeting were urged to bring in an example of their favorite hobby and had to explain it.

Following the presentation, many of the pack members received awards.

Receiving awards were Brian McElhone, Wolf badge, gold arrow and silver arrow; William Cianfarani, Wolf badge and gold arrow; Red Gibbs, Bear badge, gold arrow and silver arrow; David Prusakiewicz, 1-year service pin; and Eddie Holbrook, Denner cord, gold arrow and Bear badge.

Derby victors collect awards

Cubs in Scout Pack 1071 of the First United Methodist Church of Belleville have received honors for their efforts during the annual Pinewood Derby competition.

Design award recipients were Don Roullier, who took first place, and Bobby Butzin, second place.

Race winners include Dannie Melick, first, Danny Posegay, second, and Eddie Fletcher, third.

In addition to the racing, several Cubs received awards.

Earning their Arrow of Light, the highest award in Cub Scouting, and the only award which can be taken to the Boy Scouts, were Gary Melick,

Jeff Marsh, Bobby Butzin and Craig Daroci.

Earning their Wolf badges were Scott Daraw, Doug Chopman, and Ben Lee.

Webelos earning awards include Jimmy Clark, engineer; Steve Markle, forester; Danny Posegay, sportsman; Don Roullier, artist; Greg Sturtz, sportsman; Gary Melick, citizen; Jeff Marsh, naturalist; Bobby Butzin, citizen, geologist and 3-year service pin; Craig Daroci, naturalist, scientist, showman and 3-year service pin, and David Wertz, sportsman.

Dens 3, 4 and 6 tied for the pack traveling award.

Scouts combine awards and race

Cub Scouts from Pack 857 at the Hannan Road Elementary School in Huron Township combined an awards night with their annual Pinewood Derby competition at a recent meeting.

Awards were handed out by Cubmaster Andrew Nagy to Roger Yeager and Brian Shelton, gold arrows for their Wolf badge; and Jeff Barebeble, a gold arrow for his Bear badge.

Webelos Leader Glenn Yeager and his assistant Jim Pershing handed out Webelos achievement awards to Darren Wilkinson, Victor Karvelis, Gregory LaRoy, Robert Damico and Irin Douglas.

Irin Douglas and Robert Damico then were awarded the highest award in Cub Scouting, and the only award they may carry into Boy Scouting — the Arrow of Light — during special graduation ceremonies, marking the two Cubs' move into the Boy Scouts.

Following the awards ceremonies, some 41 Cubs competed in the annual pinewood derby.

Winning the design competition were Richard West, Jeff Barebeble and Greg Joslin.

Race winners were Greg LaRoy, Richard West and Robert Nelson.

Cubs from the pack will be selling raffle tickets in the community as part of their yearly fund-raising project.

He nets straight A's

A Van Buren Township student was among the 164 students at Michigan Technological University who had earned a perfect 4.0 grade point average during their last semester at school.

Michael G. Aimone, the son of Mr.

and Mrs. George Aimone of Lenmoore Road, Van Buren Township, earned the perfect grade — the equivalent of straight A marks — during the fall term at the college.

Aimone is majoring in Mechanical Engineering.

All-Area cagers among state's best

By TOM MOORADIAN
Sports Editor

A coach can build a winning team around Jim Eillinghausen, Plymouth Salem's 6-8, 210-pound all-stater who is considered the finest player in the school's long basketball history. Eillinghausen averaged 29 points per game and was responsible for 272 rebounds while he hit 55 percent from the floor and 82 percent from the free

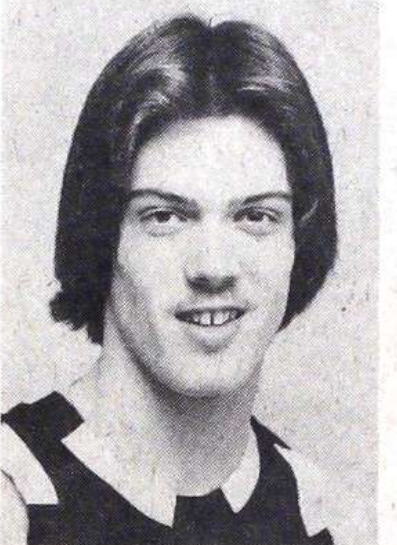

throw line. He is one of the most sought after prep cagers in the nation today and the rugged senior hasn't made up his mind where he'll continue his cage career, according to Coach Fred Thomann. "Jim is the finest all-around player this school has ever produced and the only cager in its history to make all-state," Thomann said. "He can do everything."

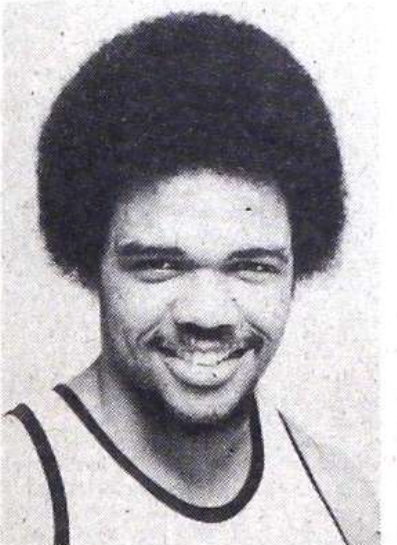

JIM ELLINGHAUSEN

DENNIS EASLEY

PAT SHERIDAN

MICHAEL MORRISON

DAN PEDERSON

Sports

Also named to The Associated Newspapers' All-Area First team are Pat Sheridan (Wayne Memorial), Dennis Easley (Belleville), Michael Morrison (Romulus) and Dan Pederson (Livonia Franklin).

All are seniors and only Sheridan is a holdover from last year's elite club. Sheridan, an All-Area griddy and baseball player as well, scored 722 points in his two seasons as a member of Coach Bill Hawley's varsity teams. He trails only Glen Ambrose, former Wayne High cage star, in the all-time Wayne scoring column. Ambrose had 852 points for three seasons. The key to Wayne's offense was Sheridan. "He's an outstanding ball player

and athlete," said Coach Bill Hawley. "Pat is definitely one of the finest players we have produced in these parts."

Easley, an excellent defensive player - he handled the opposition's top big man - notched 20 points per game and was instrumental in leading Coach Tom Niemi's Tigers to a second place finish in the Suburban 8.

"He plays every facet of the game well," Niemi said of this 6-2, 180-pound senior. "He has outstanding jumping ability and is an exceptional rebounder."

Dennis averaged 15 caroms per game.

At 5-11, Morrison is the smallest of the first string players. But the speedy guard puts to good use his deceptive moves, excellent jumping ability and sharpshooting to make him one of the most dangerous players on the hardwood.

The 158-pound senior tallied 18.5 points per game and accounted for four assists in each of the 21 Romulus games this season.

"Morrison handled our offense with authority," said Romulus Coach Jesse Meriweather. "He can shoot, play defense and is a smart player. In fact, he is an all A student."

Pederson was Franklin's MVP. He scored at a 14.2 clip and possesses a good outside shot to go along with his excellent moves to the basket.

A starter for two years, Dan kept cool under pressure. "When we needed a key basket, we went to Pederson for it and he almost always came through for us in the clutch," Franklin Coach Bob Visser said.

Bench strength is the key to any championship and the All-Area talent-laden second team is one of the best ever assembled. The lineup includes Narvell Turner (Belleville), Rodney Legion (Inkster), Matt Foster (Churchill), Brian Wolcott (Plymouth Salem) and Billy Anderson (Romulus).

Turner is a type of player who will intimidate the opposition. He averaged four blocked shots, 19 points and 13 rebounds per game in completing his second and last prep cage season.

"He has an exceptional jump shot," said Niemi, whose Tigers piled up a 17-4 won-lost record. "Narvell is a dedicated ball player who gives you 100 percent every time he's on the court."

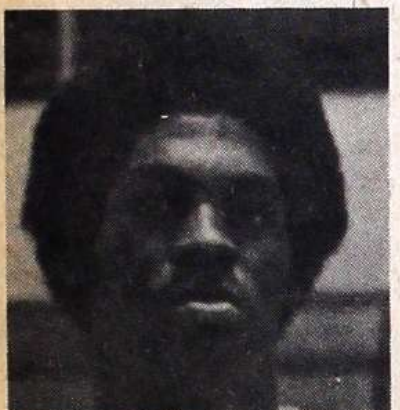

Legion captained Inkster's team and found time to score 18.9 points per game, count four assists while earning a berth on the prestigious Suburban Athletic Conference team.

Rod has two years of varsity experience behind him and also has several colleges interested in getting his name on a letter of intent.

"If Rodney didn't do it, then we didn't get it done," said Inkster Coach George Thompson. "He was our toughest guard and was assigned to our opponent's top player."

Wolcott set up Salem's offense and he counted 104 assists and 253 points for the season. An exceptional ball handler who quarterbacked a championship team, Brian hit on 55 percent of his shots from the floor and makes everyone work hard."

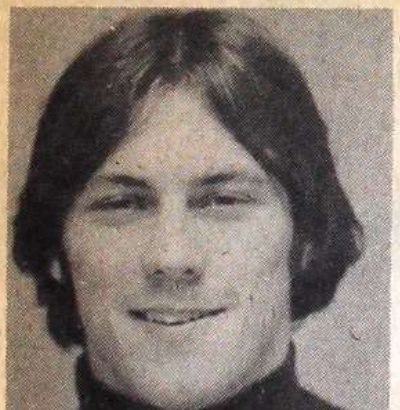

(Cont. on Page B-2)

NARVELL TURNER

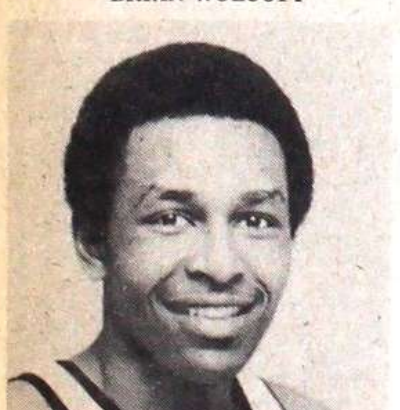

RODNEY LEGION

MATT FOSTER

BRIAN WOLCOTT

BILLY ANDERSON

Junior makes All-Area lineup

Dan Diadiun is a junior and the only underclassman to break into the senior-dominated All-Area basketball lineup this year.

And the 6-2, 175-pound Westland John Glenn cager, ironically, proved just how important he was to Coach Gordie Davis' Rockets by his absence in the lineup.

Injured the last couple of weeks of the season, Diadiun was forced to the

sidelines and, without their leading scorer and second leading rebounder, Glenn just couldn't compete in the post-season playoffs.

"It hurt us when we lost him (Diadiun)," said Davis. "He was the key to our offense and helped out a great deal on the boards. Next year I feel that Dan will be an outstanding player on both ends of the court." Diadiun, in his first year of varsity

competition, averaged 13 points per game and hauled down eight rebounds.

Others honored on The Associated Newspapers Third Team include Sam Williams (Livonia Franklin), Jeff McNally (Cherry Hill), Stanley Pittman (Inkster) and Dave Clare (Livonia Churchill).

Williams recently signed a national letter of intent to enroll at Michigan State on a "full ride" football

scholarship. The versatile 6-4, 200-pound senior helped Franklin capture the Northwest Suburban Conference championship and post a 16-8 over-all record, after the Patriots had dropped their first five games.

"Sam is a very strong defensive player," said Coach Bob Visser. "He had the job of stopping some of the best pivots in the state."

Williams finished his prep cage career with a 12.8 ppg. and 206 rebounds.

McNally was the playmaker for his father's team at Cherry Hill. A deft ballhandler who came on strong in the stretch, Jeff scored 25 points against state Class B finalist, River Rouge, in the district playoffs.

Pittman, a 6-4 senior forward, was one of Inkster's leading scorers, averaging 16.4 ppg and 10 rebounds per game. He was also picked for honors on the tough Suburban Athletic Conference team.

"He's an excellent all-around player who has a score of offers from the colleges, however, Stan hasn't made up his mind which college he will play for," said Thompson.

Clare led Churchill scorers with 366 points for a 15.9 point average. He also nailed down 225 rebounds, 11 per game in a season which triggers the Chargers fourth Western Six Conference title in five years.

"Dave is a tremendous ball player," said Coach Pat Montagnano whose team posted a 16-7 won-lost record. "He doesn't stop running until the final whistle blows and his desire makes everyone work hard."

Teams needed

If you have a softball team and don't have a league, then John Pinter is the man to contact.

Pinter is seeking two men's softball teams to complete the field for the Waltz Softball Association League which plays out of New Boston.

Contact Pinter at 654-2137 for further information.

Salem's Thomann honored as cage coach of year

As a prep cager at Taylor Center, then at Michigan State University and later as a coach at Willow Run and Plymouth Salem, Fred Thomann has always been associated with winners.

And the Salem basketball coach keeps turning out outstanding teams, capable of competing with the best in the state. Thomann's Rocks amassed a 20-2 won-lost record en route to their second straight Suburban 8 Conference championship.

In his four years as the Salem head coach Thomann has compiled an enviable 78-14 won-lost record.

And The Associated Newspapers' are honored to name Thomann as the 1976 basketball Coach of the Year.

"The key to our success here at Salem is dedication," Thomann said. "We have a bunch of dedicated, hard-working players who don't give up easily."

Thomann graduated from Taylor Center where, in 1960, he helped the Rams reach the state Class A quarter-finals in basketball. He then went on to star at MSU.

FRED THOMANN

Thomann's first coaching assignment was in the Willow Run School District where he led the Flyers to the Class B state championship.

Canton signing up golfers

Registration is being accepted this week for the Canton Township men's golf league which will get underway April 26 at Fox Hills Country Club.

League competition is scheduled for 5:30 p.m. Monday and will run for 20

weeks. Registration fee is \$10. Residents living in the township or Canton Township employees are eligible to register.

Further information about the league may be obtained by telephoning the recreation office, 326-6480 or 397-2777.

The Canton Township Recreation Department is seeking women golfers for its summer league. The league will play Friday mornings at Fox Hills Country Club.

All residents of the township and employees of the township may register at the recreation offices by telephoning 397-2777.

There is a \$5 registration fee. Competition will begin on May 28 with tee off times set for 8 p.m.

RHA needs hockey teams

The Romulus Hockey Association is seeking skaters for its spring leagues. Skaters who wish to compete in any of the several divisions are urged to call 729-0703 (bantams), 941-2037 (pee wees), 941-2946 (squirts and mites) and 941-1729 (midgets and juniors).

The Romulus MasterCraft Squirts brought the curtains down on a successful season by winning the league championship at the Tee Box. The champs amassed a 17-3-4 won-lost-record en route to the title.

Meanwhile, the Mites, carrying the banner of the Romulus Flyers streaked to their 21st consecutive victory to post an undefeated season.

In their finals against Downriver, Todd Gladsmere and Steve Thornberry each scored a goal along with a hat trick earned by Matt Oddy.

That gave the Flyers the playoff trophy.

Mapped Lakes

Available From MUCC

Maps of many Michigan inland lakes no longer are available from the Department of Natural Resources, but can be ordered from the Michigan United Conservation Clubs, P.O. Box 2235, Lansing 48911, at 75 cents each. The equipment necessary for manufacturing the maps is no longer being used by the DNR.

Although scale and detail vary, the maps generally show lake outline, depth contour, weed beds, and shoreline features such as inlets, outlets and channels.

Their weight in gold

Vowing that the "Pack will be back", Coach Don Haney (third from left) set Wayne Memorial's wrestling goal for next season: To win the Class A state title. The plan-revealing occasion was the annual Wayne Memorial Wrestling Banquet which ended with this picture session. Surrounded by the trophies that the "Wolfpack" won during the past two years are Bill Hawley, (from left) Wayne Memorial athletic director, Robert Tracy, president of the Wolfpack

Wrestling Booster Club, Coach Haney, Tim Clark, Chris Leverenz, Chris Eberhart, Kevin Wilson, Doug Cunningham, Rick Pittman, Kevin Rize, Ed Leverenz, Kevin Wilson and Jak Warren, team statistician; second row are Skeeter Walsh, Ron Souweidane, Andy MacEachern, Bo Wanshon, Randy Pittman, Kevin Tracy, Jobie Patrick, Bob Kroll, Bob Tracy, Chris Bachus and Corry Bachus.

Wrestling fans honor Haney

By TOM MOORADIAN
Sports Editor

Don Haney is never lost for words. But, last Thursday, during the annual Wayne Wolfpack Wrestling Banquet, the veteran Wayne High wrestling coach was left speechless for a moment.

What triggered the incident was a parade of unexpected guests including Don's mother, Mrs. James Haney of Latana, Florida, his sister, Peggy Shearer of Canada, his oldest brother Pat Haney, of Cannonsburg, Penn. and former University of Michigan wrestling coach, Cliff Keen.

"I was shocked to say the least," said Haney who led Wayne Memorial to its first Class A state wrestling championship a year ago and earned Coach of the Year honors in Michigan for his accomplishment. "I really was caught off balance. I didn't suspect anything."

"However, I want to thank all of those who made it possible for my loved ones to share the evening with me," Haney continued. "We're a closely-knit family and I really appreciated it."

Don's sister, Annabella Severine of Cannonsburg and younger brother, Bob, of Arizona weren't able to make the trip to Wayne.

Haney pointed out the last time the family got together it was on a saddened occasion. Don's father, James, who was the Cannonsburg Chief of Police, passed away last year.

The plan to have Haney's family join him at the awards' banquet was made possible by the wrestling boosters, according to president Bob Tracy.

"Last year we paid tribute to the boys who won the state championship," said Tracy, "this year we felt the night belonged to the coach."

And it did.

There were numerous citations, including a "Key to the City of

Wayne," and Wayne Council citation presented to Coach Haney by Wayne Mayor Paul Lada.

The Borough of Cannonsburg, where the Haney's settled and were raised, also named Don as an "Outstanding Citizen" and citations were presented to him by the boards of education of Cannonsburg and the Wayne-Westland Community School districts.

William Faust, state senator from the 13th district, introduced a bill that

would cite Haney as "a distinguished citizen."

Don also has earned a niche in Washington County (Penn.) Hall of Fame. His credentials include: four-time Western-Penna-Interscholastic Athletic wrestling champ; National AMA champ; two-time Pennsylvania state champ; named to prep All-American; winner of the Wilkes Tournament (The Rose Bowl of Wrestling) champ.

As a member of Keen's Wolverines,

Haney also captured a Big 10 title and was invited to try out for the U.S. Olympic team.

All three Haney brothers - Pat, Don and Bob - have enjoyed long and distinguished wrestling careers.

Haney's "Wolfpack," however, after leading the Class A state poll most of the season, ended the year in disappointment at the state finals.

"We have eight of our 12 wrestlers back," said Haney, "and, believe me, the Pack will be back next year."

Cherry Hill, Franklin look good at Spartan Relays

Cherry Hill Coach Joe Grasley knows what he has to do to win a Class B state track and field championship this season. And it won't be easy.

The Spartans finished eighth in a field of 72 teams at the annual Michigan State University Spartan Relays held over the weekend in East Lansing.

"I was very pleased to finish among the top 10 teams," Grasley said. "Now we know what teams we're going to have to beat on the state level in order to finish up there."

Cherry Hill fielded the second best 2-mile relay team at MSU with Mark Hagedorn, Scott Smith, Jim Myers and Mike Smith who finished in 8:22.0, losing the gold medal to Carleton Airport.

The winning time was recorded as 8:21.4.

Cherry Hill also finished third with its sprint medley relay team thanks to Mike Smith, Booker Gregory, Mike Lipinski and Bill Johnson who teamed for a 2:35.5.

Spartan long jumper Dave Bisesi leaped 20 feet, 3 1/2 inches for a fourth place medal while Johnson finished seventh in the mile run (4:39.9). Teammate Clarence Guyton ran eighth in the 70-yard high hurdles (9.4).

Cherry Hill joins a score of area teams this weekend at Mansfield, Ohio to compete in the prestigious Mansfield Relays.

Livonia Franklin was the only area Class A team to score in the Spartan Relays. Coach Bob Holmes' Patriots captured a third place with their

sprint medley relay team made up of Phil Yhasz, Dave Smith, Jim Casey and Chuck Ronan who were clocked in 2:32.6.

Franklin finished behind winner Detroit Mumford (2:30.4) and runner-up Flint Central.

Ronan also earned for himself a fifth place medal with a 4:32.2 run in the mile.

Franklin launched the dual meet season on the shortened of a 70-62 decision against cross-town nonleague rival, Churchill. The two teams split the number of first places evenly, each getting eight.

15 cagers selected All-Area

(Cont. from Page B-1)

also made 76 percent of his free throws.

"Brian had the fewest number of turnovers and was our playmaker," said Salem Coach Fred Thomann. "He's just a super ball handler who is an outstanding shooter."

Foster ended his prep cage career with 312 points (13.6 ppg.) and 171 rebounds in a 16-7 won-lost conference title season. He was awarded a football scholarship to Michigan State University.

"Matt was our team leader," said Coach Pat Montagano. "He kept us going when the going was rough."

Anderson played "out of position" to fill in as a center instead of one of the forward spots. However, the 6-2 senior got the job done for the Eagles as he chalked up 14 points per game and was the team's leading rebounder with nine.

A host of schools including Adrian, Albion have offered Anderson a full ride scholarship. He's still undecided where he'll play collegiate ball.

DAVE CLARE

Exemplary athlete

Ron Souweidane didn't win any state, regional, district or league wrestling titles and the Wayne Memorial grappler also didn't amass an outstanding record, however, Ron showed "desire, dedication and dependability" during the season. His efforts paid off for him as he was selected to receive the inaugural Bill Elliott Award. Elliott, a veteran Wayne

coach and athletic director, died earlier this year. His credo stressed the three "D's" as keys to the successful coaching and teaching of young athletes. Making the awards' presentation is Bill Hawley, Wayne Memorial athletic director (at left). The ceremonies were part of the annual Wayne Memorial Wrestling Banquet staged last Thursday.

AUTO FACTS

by Jr. Kosin

Before your battery is charged for operation, its cells are filled with solution called electrolyte, which is one part sulfuric acid and two parts water. This mixture is the battery's lifeblood. The lead plates in the cells must be constantly immersed in electrolyte in order to generate the electricity you need to start the car, and to operate the various accessories when the engine is not running. To be sure that the plates are covered with electrolyte at all times, check the battery once a month especially in cold weather.

Keep your car running smoothly and efficiently with quality parts from KOSIN'S AUTO PARTS, 26831 Michigan, Inkster. We specialize in all kinds of parts for foreign cars, including Datsun, Toyota, Fiat, Opel, Volkswagen, and many others. We also have a full line of parts for domestic cars! Expert machinists turn brake drums, do valve work, and even rebuild engines in our complete machine shop. We offer fast, friendly, and expert counter service. Stop in any weekday from 8 a.m. until 8 p.m., or on Saturdays until 5 P.M. Call us at 563-3894.

AUTO FACTS:

Handle your battery cautiously and never strike a match or smoke under the hood of the car.

FLORA/SCOPE
by Earl Flora

Early birds will get better than a worm at Wolverine Raceway during the first week of racing as the big Livonia mile track warmly welcomes back its harness fandom. On Tuesday night, April 13, the first 1,000 grandstand patrons will receive free, "I'm Hot To Trot" T-shirts, on Wednesday colorful bicentennial horse pictures to the first 1,000 and on Thursday children's horse coloring books to 1,000 early arrivals. Cooperating in the give-aways are radio stations WDEL, WCAR and WOMC, each of which will be represented by its most popular mike talents. . . . Numbered among Wolverine's incoming stables are none of the racing operations which made up the track's top ten of the 1975 season, including the two track champions Chris Boring and Greg Wright. Boring, a 34-year-old veteran from last year's top echelon include Ray Remmen, Bill Gale, Tom Merriman, Tom Harner, Harold Fisher, Randy Fulmer, Pat Crowe and Keith Crawford. . . . Wolverine's new betting mix includes the usual nightly double, a perfecta in the third race, and trifectas in the fifth, seventh and tenth events. No inflation here, either; a wager can be put down on any of them for \$2. . . . From Pompano Park in Florida comes word that Ed O'Hare's ever-powerful stable will be handled at Wolverine by veteran Ted Taylor, who has just wrapped up his third straight driving championship at Pompano. . . . Other early trainer-drivers to watch at Wolverine include Jim Crane, a Californian famous for his training feats with Nero last year; Nova Scott's Archie McNeil, 30-year-old one time trainer for K. D. Owen's strong Grand Circuit operation, and the always dangerous Bobby Williams, a Grand Rapids native renowned for his campaigning of such major league stake horses as Best of All, Windy Way and Earl Laird. . . . The same Wolverine racing surface which produced a record 57 miles in two minutes or less last year is ready and waiting for the April 12 opener. With no thoroughbred racing scheduled in between last year's harness closing in October and this year's liftdier, track maintenance workers were able to leave the harness surface status quo. . . . Male Harness fans who enjoy watching a pretty female driver line up behind the starting gate will get double their pleasure this season. Joining lady champion Bea Farber at Wolverine will be comely blonde teamster Jayne Weller, also a winner in more ways than one. . . . For bargain seekers, Friday, June 11 should be circled on the calendar. That's the date of Wolverine's annual "Old Times Night", when prices on most everything are rolled back to grandpa's good old days.

She's the champ

Getting a helping hand from teammates Jill Preston (at left) and Stacey Krupnak (at right) is Natalie Kozorosky who won over-all honors at the recent Wayne-Westland Junior High Girls' Gymnastics city tournament. Miss Kozorosky, competing for Adams, placed first in the tumbling (7.55), second on the

Belleville swimmers set 3 state AAU relay records

Propelled by record-setting performances from their 200-yard medley relay, the 800-yard freestyle relay teams and an outstanding individual effort by Russ Bearance, Belleville's Tigers finished eighth in a field of 46 AAU swimming teams held at Royal Oak.

Bearance set a state record in winning the 100-yard butterfly in a fast 56.66 performance. He went on to take three second place medals; the 50-yard freestyle (23.67), 100-yard freestyle (51.66) and the 100-yard backstroke (58.63).

Bearance also placed third in the 200-yard individual medley (2:12.25), 200-yard backstroke (2:12.05), and the 200-yard freestyle (1:54.68).

The Tigers were clocked in the sixth best time in the nation for the 800-yard freestyle relay when Coach John Stosick sent his 13-14 year olds Mike Stoelton, Ward Tomich, Joe Thomas and Bearance into the waters. The foursome responded with a record-setting 7:45.49, the best time in the state for that age group.

Belleville also placed first in the 200-yard relay thanks to Tomich, Thomas, Stoelton and Bearance who were clocked in a 1:48.75.

The 200-yard freestyle relay team of Stoelton, Thomas, Tomich and Bearance finished second, four seconds off of the state record. The second-place time was a 1:36.08.

Tomich also enjoyed an excellent day. He placed second in the 200-yard freestyle (1:54.34) and earned a third

Ex-Wayne golf star picked as pro for Florida course

By Roger Turner

BOCA RATON, Fla. — For Ron Aleks, the wait figures to have been worth it.

The prematurely gray, 33-year-old '74 Michigan PGA Section champion has been named Golf Director and head professional for Arvida Corporation's elaborate Boca West development in this "millionaire city's" west suburbs.

It is the first head assignment for the Westland (Mich.) native who turned pro in 1962 with Dub Pagan at West Palm Beach.

But he has "paid his dues" over a dozen subsequent seasons with tenures at some of the most prestigious country clubs in America and a playing career that includes two years on the professional tour and frequent top performances in sectional events.

Like all professionals who have apprenticed and been assistants for lengthy tenures, the first head assignment has all the usual extra special meanings for him, Aleks says.

However, getting it with Boca West is really something super extra special.

"This is a big place, a growing place and it offers more than the usual challenges," he said.

Boca West already has three golf courses - including the all-new Hagge and Bruce Devlin and opened only late last October.

Still on the drawing boards are a fourth course and a completely new golf-center club house and pro shop which will enable a separation of current facilities for an equally fast growing tennis and social facility.

The entire development is part of a 1,400 acre complex on which only the first several hundred of what will be several thousand residential home sites and apartments have been built.

"This operation is so big and so good that I have already ran into a half-dozen or more members I had known at other clubs in Michigan and New York," Aleks said.

"It is such an enticing development that I wouldn't be surprised if we run into quite a few more in the years ahead. A lot of quality people are still looking for just the right Florida location. I think this is it."

After launching his career as a playing and working professional with Pagan in 1962, Aleks was an assistant with Pete Cooper at Palm Beach National, Bob Hayes at North Palm Beach, Bob Tuthill at Grossinger's in Liberty, N.Y. and Don Soper at Royal Oak (Mich.) CC before taking a two-year shot at the tour.

Aleks calls his tour earnings "less than modest," but says the experience, although wonderful and something he is glad he did, helped make up his mind what he wanted: A head professional's job with a top

flight country club.

He spent '69-71 with former PGA President Warren Orlick at Tam O'Shanter CC in Orchard Lake, Mich. Then came two years with Frank Metzger at the Bloomfield Hills (Mich.) CC and last year with Ben Lula at Country Club of Detroit in Grosse Pointe, Mich.

"I made some applications and, like everyone, was discouraged when things didn't come fast," Aleks says. "But it didn't change my mind about

Wolverine Raceway is ready

Upwards of 1,300 harness horses began their spring migration into Wolverine Raceway Monday as the big mile track in Livonia pulls to within one week of its 1976 opener.

The barn area and the race track was opened Monday morning to stables moving in from all points of the North American compass. Horses are being flown in from California and vanned in from New York and Florida. Canadian pacers and trotters will arrive from as far away as Quebec and the Atlantic Provinces.

"With our new barn (200 stalls) we can accommodate well over 1,300 horses," Wolverine general manager Dick Wilson reported. "And we figure we'll see at least 300 ship-ins — horses shipped back and forth from their home farm on racing nights — during the season."

Arriving along with the flood of horses Monday morning will be veteran race secretary Bill Connors, who has been working the winter harness meeting at Pompano Park in southern Florida. Post position draw for Wolverine's opening night card, Monday, April 12, will be conducted by Connors Thursday morning.

Among the larger stables shipping in from distant points are those of Jim Dennis, Jim Crane and Bob Williams from California; Ted Taylor, Archie McNeil and Harold Fisher from Florida; and Merritt (Butch) Dokey from New York's Yonkers Raceway.

Included in Dennis' powerful string is the ageless 7-year-old pacer Sir Dalrae, harness racing's horse of the year in 1973, and another pacing whiz Rin Tim Tim who finished in the money 26 times in 32 starts as a 3-year-old in 1974 and banked \$123,368.

Taylor, who will also now handle the horses of successful Detroit owner Ed O'Hare, has been busy the last few weeks wrapping up his third consecutive driving championship at Pompano. Always a popular Detroit-area performer, Taylor was the Wolverine track champion in 1966.

Other major league operations due at Wolverine early this week include those of Greg Wright, Chris Boring, Harold Fisher, Ray Remmen, Bill Gale, Dick Hogan, Shelly Goudreau, Tom Merriman, Randy Fulmer, Pat Crowe and Keith Crawford.

Track superintendent Tom Wilhelm has pronounced the fast Wolverine mile track in top shape for this week's heavy training traffic. The wide, sweeping surface produced a record 57 2-minute miles in 1975 and spawned seven new Wolverine speed marks in the various age and gait categories. Still another all-time track mark was tied.

The 3-year-old pacing horse, Osborne's Bret, handled by Tom Brinkerhoff, lowered the Wolverine track record to 1:56-flat in the speed onslaught.

what I wanted. I knew I would have to wait for the right job. It wasn't easy. But I think it will have been worth it."

Aleks' teaching and playing reputations have kept pace with his professional administrative growth. He was a frequent high finisher in Sectional events.

He placed third in the Michigan Open in '68 after leading until trouble on the final holes; finished runnerup in the 1969 PGA) lost the Open title to

St. Richards' cage champs

Undeclared on the season, the Celtics captured the Westland St. Richards' Basketball League championship, winning their finale 37-19 over a tough '76'ers contingent. Mark Hacher led the champs' offense this season with 66 points. The

Water Burkemo in 1970 and then broke the bridesmaid image in 1974, beating touring pro Gary Groh by two shots for the Michigan Sector PGA title.

At Boca West, he succeeds veteran professional Edward Burke who is semi-retiring to a teaching career.

Aleks and his wife, Carolyn, and two children, Robbie 11 and Scott 4, are moving their residence into one of Boca West's townhouses near the current clubhouse.

championship lineup included: (front row, kneeling) Jim Wacker, Dan Covalt, Mark Kacher and Mark Sovel; back row are Greg Gill, Todd Jennings, Jeff Gill and Roger Braun. Coaches of the team are Hubert Gill and Ed McCahill.

Susterka closes out EMU diving career

Barry Susterka, co-captain of the Eastern Michigan swimming team, closed out a brilliant collegiate diving career at the NCAA Swimming and Diving championships.

The Belleville High School product placed 44th in 1-meter diving and 37th on the three-meter board. This year marked the third consecutive year he had qualified for the national meet.

"Barry had his best chance to advance in the meet on the three-meter board," EMU coach Mike Jones commented. "But he was off the mark on his last dive and missed the cut by five places."

Nevertheless, the 5-7, 150-pound Susterka concluded his career with

three consecutive Mid-American Conference one-meter diving championships and two titles on the three-meter board. His two wins helped pace EMU to a third place finish in the league.

"He was the 'class' diver of the MAC," Jones said, noting Susterka still holds the league record (464.780) on the one-meter board.

"And he was one of our hardest workers," Jones added.

The physical education major may have inherited his talents from his father, Bud, a former swimming standout at the now closed Ypsilanti Roosevelt High School.

BARRY SUSTERKA

Afraid of your mail box?

No friendly letters or post cards. Just bills and past-due notices.

Rent. Department store bills. Credit card invoices. Car payments. Every week a few more come in. Some arrive in between paychecks and you put them aside until you have the cash.

And if you forget to pay them, they send you a reminder. And on and on it goes.

Well, Household Finance has a solution to the endless flow of bills. First, gather up every bill you have and figure what you owe. Then see HFC about a Billpayer Loan of up to \$1,500.

The Billpayer Loan lets you pay off all those bills once and for all and allows you to repay Household in a variety of monthly installments geared to your budget.

The Billpayer Loan from HFC. It makes your mail box seem a lot friendlier.

Wayne Americans capture state junior hockey crown

Rallying to a 4-2 victory over arch-rival Berkley, the Wayne Americans captured the Great Lakes Junior

Hockey League state championship last week. The victory added a fourth gem to

the American's crown. They also claimed the league, district and regional titles earlier in the campaign.

The state title is a ticket to the national playoffs, held the first week of April in Rochester, New York.

Playing over a rash of minor penalties, - totaling 30 minutes - Wayne emerged with the key victory.

The game remained scoreless until 18:51 of the second period. Then, Steve Morris broke the ice, getting his first of three goals for the evening.

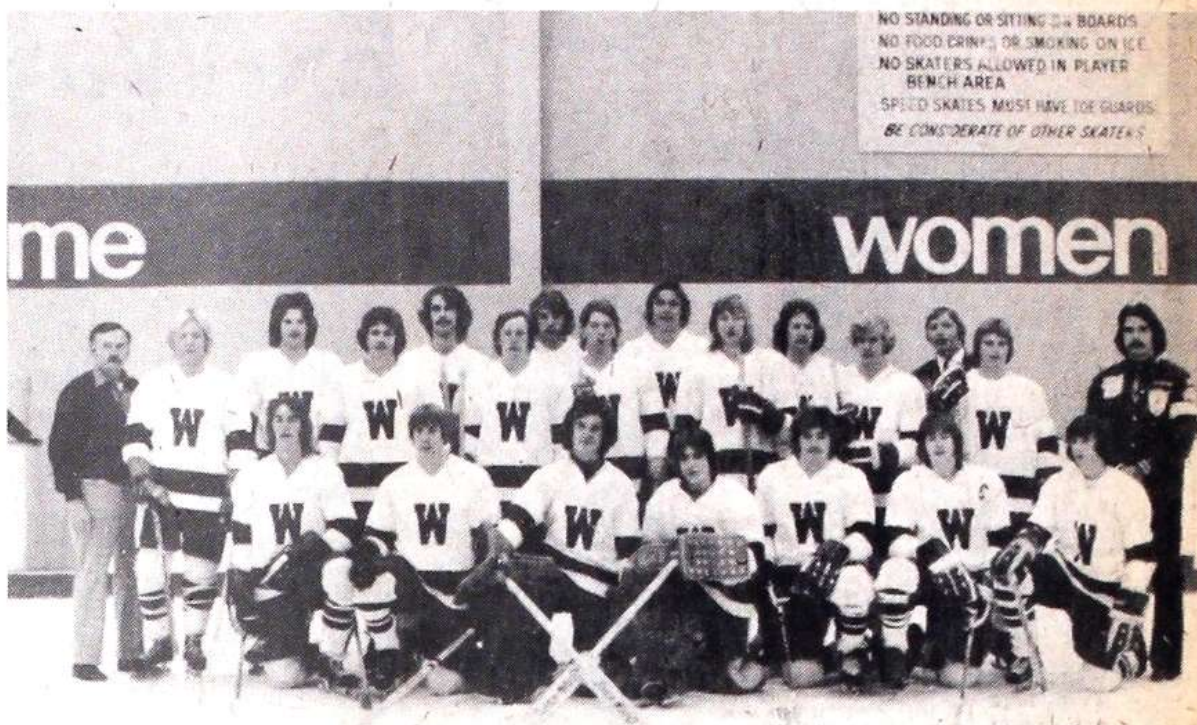

Morris' teammate Ron Shiner accounted for the fourth goal with assists going to Bob McGinley and Marty Kositz.

The winning goalie was Steve Falcone.

"Our kids have come through all year long," said Coach Bill Frazer. "That's the kind of skaters we have - they never quit."

"And we would like to thank all of our friends and associates who gave this team moral and financial support," Frazer added.

"Of course, the big test is ahead of us and we're going to do well but, whatever happens, I'm proud of these boys and I'm sure the community is."

Wolverines qualify 20 for state final

The Wayne-Westland Wolverine Wrestling Club will send a 20-man delegation to the state finals to be held at Oakland University on Saturday.

The young wrestlers earned a shot at state titles by placing among the top three in their age and weight classes at the recently staged Southwestern Michigan Wrestling Alliance Regional Tournament staged at Bloomfield Hills.

The qualifiers include: Victor Golden, who captured a gold medal at the regional in the 52-pound class for 8-and under wrestlers. Teammate Mike Conboy placed third in that weight.

In the 9 and 10 year old category, Steve Cuomo (70 pounds) and John Novick (85) placed first while Paul Cuomo finished second.

Heavyweight Keith Zimmerman and 126-pounder Mike Novick led the local 11 and 12 year old wrestlers as both emerged from the mats with gold medals. Teammate Rob Paciocco (80) finished second while Dean Garza and Dean Killiam wound up in third place for the 80 and 112 pound classes, respectively.

The Wayne-Westland group

collected five gold medals in the 13-14 age group. The recipients included: Mike Thomas (100), Joe Justin (105), Jeff Rose (112), Bill Meyer (119), and Mark Alter (158). They had runners-up in Jeff Hislop (90), Dwayne Gibbs (133) and finished third with Guy Haggard (90), Rudy Walsh (105) and Matt Paciocco (140).

The team is coached by Sam Adams, Bill Nelson, Steve Fugaban and Al Paciocco.

At the Fenton Invitational meet, the Wolverines came back with three first places, a second and third place medal. Robb Paciocco (80), Sam Fairiugia (95) and Zimmerman (heavyweight) each were crowned champs in their respective weights.

Ron Pittman placed third (85) and Dean Garza (80) finished second in the 11-12 age group.

In the 13-14 age bracket, six of the eight local contestants won titles, including Guy Haggard (90), Mike Thomas (100), Joe Justin (105), Bill Meyers (119), Matt Paciocco (140) and Mark Alter (158), while Jeff Rose (112) and Joe Prater (148) finished third.

Distinguished cage career

Andre Richardson, former Inkster High all-state, All-Area cage star, brought the curtains down on an outstanding collegiate career last week at Bowling Green State University by being named to the Ohio all-star team that will meet its counter-part from Indiana. The 6-8,

215-pound center is a three-year letterman in varsity basketball and captained this year's team. He was also named Bowling Green's Best Defensive Player of the season. Andre is the son of Mr. and Mrs. Willi Richardson of 3775 Burns, Inkster.

CMU to host prep football coaches

Registration is now being accepted for the annual Central Michigan University Football Coaches' Clinic set for Apr. 10 at the Dan Rose Center.

If coaches register before Apr. 9, there will be a \$5.00 fee for each coach. After Apr. 9, coaches will pay a \$6.00 registration fee on the day of the clinic. The fee includes coffee and doughnuts, luncheon and a copy of the clinic notes.

CMU football coach Roy Kramer and assistants Don Peddie, Jessie

James, Chris Allen and Denny Swenson will conduct the clinic along with athletic trainer Ken Kopke.

Coaches may bring their entire staff. The clinic is open to all coaches of interscholastic teams.

Mail registration with check or money order, payable to Central Michigan University, to:

Don Peddie, Football Office-Rose Center, Central Michigan University, Mt. Pleasant, Michigan 48859.

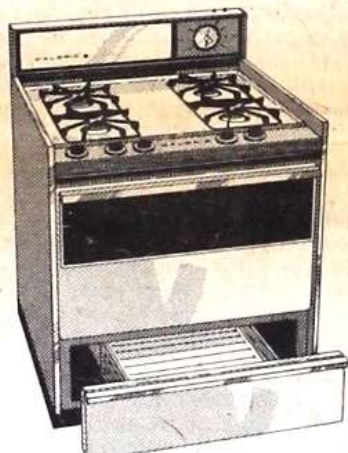

The Year of the Americans

Rallying to a 4-2 victory over Berkley, the Wayne Americans captured the Great Lakes Hockey League state championship. The state title is the Americans' ticket to the United States National Junior "B" Tournament to be held in Rochester, New York. Members of the championship team are: (seated from left) D. Herrst,

L. Watts, R. Baltazar, S. Falcone, B. Mittseff, E. Ross and B. McGinley; second row includes J. D. Sharp, R. Smith, Coach R. Frazer, K. McLean, W. Byrnes, S. Morris, G. Winemaster, R. Shiner, M. Kostiz, B. Betterly, D. A'nuzio, N. Kawalde, G. Harris and sponsor T. Herrst.

A great revolution in
buying and selling.
Sell your stored items
for quick cash during
this Buy-centennial time.

Now you can have old-fashioned
results with the speed
and efficiency of tomorrow.

OUR FIRST 200TH ANNIVERSARY SALE

Come and join the great American Revolution in buying and selling --- our spirited Classified sale!

We offer you special Bicentennial buys with old-fashioned rates on Want Ads during this 200th celebration of our nation's birth.

Now is the time to declare your independence from those useful, but no-longer-used stored items. As you perform your Spring house-cleaning chores, look for articles you no longer need, that are still in serviceable condition. Then call our Classified Advertising department and take advantage of special low rates. Ask a congenial and helpful Ad-Visor to compose a sales message with maximum drawing power. Some popular items offered for sale in Classified

include: Antiques, machinery, sewing machines, photo equipment, cribs, office equipment, typewriters, appliances, furniture, drapes, bikes, garden equipment, stereos, radios and TVs, power tools and musical instruments. Don't forget that it's always old-fashioned bargain time when you are checking the Want Ads for things you need. You'll find great buys in all kinds of merchandise and attractive rates on a variety of special services, from basement repair to re-roofing. Help Wanted listing may offer you a more exciting and rewarding career. In the Real Estate section, you may find a new lifestyle in a better house or apartment.

One thing is certain. Classified Advertising gets results -- we hold this truth to be self-evident.
